Combination Book Cases...

We call particular attention to two Combination Cases in the line which are similar to each other. They are both of handsome golden oak with mirrors and contain a convenient writing desk, a handy book case, cupboard and drawers and a fancy cabinet top. These articles would cost 40 per cent more in most stores.

Style No. 1—Our price is \$5.30
Style No. 2—Our price is \$10.00
Everything sold on Easy Payments.

French & Bassett,
Complete House Furnishers.

HOW IS IT WITH YOU?

"Look round the habitable world, how few know their own good, or, knowing, it pursue." If the above were not true, fewer people would find their property under-secured when fire occurs and more people would have regard for the character of the insurance they secure on their property.

When you Get Insurance, Get the Best. We Furnish It.

Why is Electric Light Best?
Because it is Healthy, Clean, Pure and Brilliant.
HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolored of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

LADYSMITH RELIEVED

Siege Has Been Raised By a Part of Buller's Forces.

London Mad With Joy and All England Is Now Jubilating.

LONDON, March 1. 9:52 a. m.—The war office has received the following dispatch from Gen. Buller:

"LYTTLETON'S HEADQUARTERS, March 1, 9:05 a. m.—Gen. Dundonald, with the Natal Carbineers and a composite regiment, entered Ladysmith last night. The country between me and Ladysmith is reported clear of the enemy. I am moving on Nelthorpe."

RENSBURG, Feb. 28.—Gen. Clements, escorted by a squadron of Inniskillings, entered Colesberg this morning and received an enthusiastic reception. The Boers are in full retreat. A number of the leading men have been arrested. The inhabitants are well and not starving. They have suffered many indignities at the hands of the Boers, but no violence.

LONDON, March 1.—When the news of the relief of Ladysmith became known, London went mad with joy and throughout England the scenes witnessed have no parallel in the memory of this generation.

The pent up jubilation at the relief of Kimberley and the defeat of Cronje could no longer be controlled, and with today's crowning triumph the national trait of self restraint was thrown to the winds. The Lord Mayor of London immediately telegraphed his congratulations to Gen. Buller and the Queen. When the Queen received the news at Windsor, the bells on the curfew tower of the castle were rung in honor of the event.

This storm of jubilation centered around the mansion house, and by noon thousands of persons blocked the many approaches to that grim building. It was a dense, black mass, composed chiefly of business men, the majority of them carrying little union jacks. Never before was there such a sale of flags as today.

Through this cheering throng, there was only one avenue open to traffic and this was utilized by the buses going from east to west. All traffic in other directions was stalled for hours. The only way to get past the mansion house was by mounting the buses, which soon began to resemble chariots in a triumphal pageant. Stock brokers, bankers, clerks and workmen clambered on top, and as the buses lumbered past the historic building, stood up, waving flags, hats and handkerchiefs and calling for cheers for Buller and Roberts. A mighty shout answered them from the crowds through which they were passing. The procession became continuous, yet the crowd never tired of cheering every time the name of White, Buller or Roberts was mentioned, and off came hats and up went the little flags.

Grave old financiers waved and yelled as frantically and as often as theurchins who had clambered the mansion house steps, that England's honor had been saved. The strain that for 118 days had kept the nation in terrible anxiety was removed. The Lord Mayor showed himself at a window out of which he hung a huge city Imperial volunteer flag and the crowd yelled its self praise. Staid magnates grabbed flaring posters from newboys' and brandished "Ladysmith relieved" to the waving throng. All thought of business was forgotten. Nothing could be done on the stock exchange but sing "God Save the Queen," and business at the Baltic (wheat market for cargoes) closed at 1 o'clock. No one wanted to trade on such a day as this. The stores put up their shutters and gave their employees a holiday. Great ensigns floated in the sunlight from hundreds of buildings and little union jacks lit up the murky city windows.

The Lord Mayor wired Lady Buller as follows:
"My sincerest congratulations on your gallant husband's achievement." He also ordered a holiday for the city schools. Later he answered the demands of the crowd, that increased as the day wore on, by a speech in which he said:
"This news makes our hearts leap for joy. We now are satisfied that our sacrifice of blood and treasure was not in vain."
The buses were given to ring the great bell in St. Paul's this evening. The West End is as enthusiastic, though not quite so demonstrative as the city. The stately foreigner who so far forgot himself as to display large union jacks from his windows, met at the entrance to the foreign office who exchanged the warmest congratulations.
Crowds blocked the war office lobbies, struggling to see for themselves the monument of the great tidings and cheering for Gen. Buller, Lord Dundonald and other heroes of the hour.
Outside Marlborough house, the London residence of the prince of Wales, a large and jubilant crowd assembled. Briefly from one end of the metropolis to the other, joy reigned supreme and hunting was flying everywhere in the bright March morning, and securely an omnibus passed through the happy streets, but what had happened to the driver's whip and a union jack of red, white and blue streamers.
All over the United Kingdom, these scenes were duplicated. At Glasgow, Liverpool, Edinburgh and, in fact, all the big cities of the island, there were everywhere, whistles tooted, bells chimed and crowds paraded the streets, singing patriotic songs. Business was given up for the day.
The schools were closed, in the harbor all the vessels dressed ship and at the military and naval depots scenes of the wildest enthusiasm prevailed.
At Liverpool, addressing a crowd of 20,000 people assembled around the town hall, the Lord Mayor said:
"I thank the Almighty God for the glorious news. We have awaited it patiently. We are satisfied that, under the humane laws and government of this country, the Boers, in a very short time, will be loyal citizens of the British empire."
The afternoon papers voice the exultation of the nation.
The Globe says:
"The night is passed. Since Havelock and Outrage fought their way, inch by inch, through the crooked streets and alleys of Lucknow, no such thrill of excitement has gone through the nation. The empire has suffered and sorrowed much during the last few months, but the tidings of Tuesday and today's victory made it all seem like a gloomy nightmare. The shadow of night has passed. The credit for our success rests with Lord Roberts as fully as if he himself had ridden into Ladysmith. The sufferings and privations are over and empire tenders a tribute of gratitude and admiration to Gen. White and his immortal garison."
The Pall Mall Gazette says:
"It is impossible to forecast the relief of Ladysmith on the duration of the war, which may yet culminate in a protracted struggle before Pretoria."
The Westminster Gazette says:
"The news this morning celebrates for the moment the memory of the long and costly and, we fear we must add, wasteful operations that have gone before. In ten days, thanks to the admirable strategy of Roberts and Kit-

chener, the whole situation is revolutionized."
The queen has telegraphed her congratulations to Gen. Buller and Gen. White, and the prince of Wales has telegraphed his congratulations to Gen. Buller.

At Portsmouth the naval commander-in-chief announced the relief of Ladysmith by a general signal, the great dock yards and war vessels greeting it with cheers.
What the next move will be remains as much a conundrum as prior to the receipt of Gen. Buller's dispatch. Lord Dundonald is assumed to have made a wide turning movement eastward, skirting Bulwana hill, and Gen. Buller may reasonably be expected to be in Ladysmith with the bulk of his forces by tonight. Whether, like Roberts at Kimberley, he will be able to turn the tables on the retreating Boers remains to be seen. But opinion here inclines to the belief that no aggressive movement can be immediately undertaken by Gen. Buller and Gen. White's forces; hence, Lord Roberts is likely to soon have to face the enemy strengthened by large reinforcements from all sides.

While it is generally realized that Lord Roberts' strategy is mainly responsible for the relief of Ladysmith, there is a feeling of anxiety lest his plans suffer from the horses Gen. Buller might let slip into the Free State. Evidently Lord Roberts is aware of the situation. It is reported in London, but the news is not confirmed, that Gen. French has already reached Bloemfontein, which is not improbable, as the Boers are scarcely expected to make a stand there.

The significance of Gen. Kitchener's presence at Arundel is not yet explained. But wherever he goes something is likely to happen, and developments may shortly show strategic plans as interesting as those which culminated in the defeat of Gen. Cronje.

Lady White, in a message in reply to congratulations, says:
"All the world is in sympathy with me today, and I am in sympathy with the world. I am delighted at the joyful news of the relief, and am happy at the intelligence that my husband is well and safe at last. As a wife I can say no more. What happy wife could say more."

FIGHT AT PIETER'S HILL.
British Artillery Fire Terrible—Kitchener Led a Charge.

Colenso Camp, Tuesday, Feb. 27.—Today, the anniversary of Majuba hill, the British stormed the Boer position on Pieter's hill. Since Friday's attack the whole face of the position has been shelled at intervals from early this morning the trenches directly opposite the British front and the neck separating Pieter's hill from another hill were simply strewn with lyddite shell and shrapnel. The British were so close that anything human could live on the hill. At 3 o'clock this afternoon the batteries and salvos and all the heavy ordnance was in constant action. Gen. Buller led his command to the extreme right, Col. Kitchener, who had taken Warner's command, stormed the center. The brigade, under Col. Northcott, attacked Railway hill. The infantry on the right advanced over the hill, forcing the Boers to retreat. While Col. Kitchener led his men over Railway hill, meeting little opposition, the British now command Railway hill and the direct road to Ladysmith.

SCENE IN CRONJE'S CAMP.
River Banks Were Honeycombed With Burrow Like Trenches.

London, March 1.—In a dispatch from Paardeberg dated Tuesday a staff correspondent says:
"On my first visit to Gen. Cronje's camp I was admitted inside even before the British guard. At every turn I came upon dead swine, carcasses of horses or mules, tainting the air. It seemed impossible that thousands could be crowded in such a frightful stretch. The river banks were honeycombed with trenches such as had never been seen before in warfare. The Boers were really underground dwellings. Unless a shell were to drop straight down into the opening it would not affect the interior. Flat, trajectory projectiles would be bound to fall to reach them. The Boers were lying or sitting on the ground. Their faces were haggard and wan. They said there was not a drop of spirits in the lager. Every countenance showed joy at the end of the dreadful siege. Some of them beamed and said they hoped they would soon get whiskey. Staters spoke English, but there was not a word about liberty, the only expressions being those of joy over the present deliverance. One man, shaking his fist in the direction of Gen. Cronje, exclaimed: 'That man deserves to be shot.'"
"Not a woman or child in the camp had been hurt, except one girl, who showed an injured finger tip. There were heartrending partings between several men and their wives, and many of the women cried bitterly. Several youths of from 16 to 18 years of age were in the camp."

HAD PLANNED A SALLY.
Cronje Had Arranged For a Sortie Sunday Night.

New York, March 1.—A dispatch to the World from Kimberley says:
Deserters report that Gen. Cronje intended to cut his way out through Lord Roberts' forces last Sunday night, but the failure of scouting Boers outside the British lines to seize a kopje to aid him frustrated the project. So he surrendered.
Several women and children were among the prisoners. It is declared here that the British have captured four Krupp field guns, two Vickers-Maxims, several ordinary Maxims and 5000 small arms.
The Boer intrenchments were simply narrow ditches. When the British examined them they found all sorts of domestic appliances, trunks and boxes. In many instances, were sunk to the level of the ground and beside many of the partially filled with food, were cooking utensils.
The tremendous British shell fire seems to have produced scarcely an appreciable effect.
The list of the Boers wounded during the week the laager was held was only about eight. The number of dead is unknown.

BOERS' LOSSES.
Stierkspruit, Cape Colony, Feb. 28.—The Boers admit that their losses when Brabant captured Jansema were five killed, 123 wounded and 20 missing.

WAS LIKE AN INFERNO

Graphic Story of the Last Hot Battle Fought Near Colenso.

Boers Faced British Fire With Courage Born of Determination.

London, March 1.—The correspondent of the Daily Telegraph sends the following:

Colenso Camp, Monday.—An armistice ruled all day yesterday, both sides being engaged in burying their dead. The Boers and British fraternized during the suspension of hostilities. At 9:30 last night the enemy made frantic efforts to capture the kopjes to the north of Colenso, where our howitzer battery is posted, but they were repulsed.

It is reported that 4000 have left their positions surrounding Ladysmith and gone to Dundee. A Boer commando is hovering in the vicinity of Ennersdale. Its object presumably being to smash the railway bridge. The enemy admit having sustained heavy losses.

At 1 o'clock on Friday a general attack against the enemy's whole position was ordered. Our men gained ground by dogged courage. By sections the troops rushed across the open spaces, with the bullets of the Boers whizzing around them, while their comrades, secure behind the rocks, fired well-directed volleys to cover their advance.

A score of men would dash forward and seek cover. Then, in turn, they would fire volleys, and allow their comrades to take them. Such were the tactics adopted until the men nearly got to the Boer trenches. At 6 o'clock the leading company of the Inniskilling Fusiliers reached a platform about 200 yards distant from the Boer trenches and charged.

The Boers stood up and faced our fire with the courage born of determination. Headless of the lyddite and shrapnel shells falling over and about them, which made the summit of the hill look like an inferno, they shot down our advancing lines with unerring accuracy. I saw the first company waver and then break before a shower of well-directed leaden hail. Within a minute not a man was left standing. I thought the whole company of fusiliers was annihilated, but shortly afterward I could see some of them move, then rise, and walk quietly to the rear and take cover. The supporting company was also cut up, and the Inniskillings, perceiving the uselessness of this attack, began to build walls to protect themselves from the Boer fire. There they lay over night, almost without speaking distance of the enemy, the Boers being posted on high, unassailable kopjes. It would take ten times the defenders' number to successfully carry them.

This dispatch from its special correspondent, Richard Harding Davis, is published by the Daily Mail.

Pieter's Station, Sunday.—The attack of the Inniskilling fusiliers on Friday night on Railway hill, and the stand made throughout the night was one of the most gallant and stubborn efforts of the war. For twelve days the battle has been continuous by night as well as by day, and this was one of its supreme moments. The Inniskillings joined this column with twenty-four officers. They have five remaining. That tells the story.

No map, no potted account, can give a correct idea of the difficulties of these hills and ridges, which succeed each other like waves in a heavy sea. One gives way only to another. Each can be entailed, and until one is taken it is impossible, even with the keenest scouting, to know what fortunes lie beyond it. The military problem changes as the column advances, each kopje refusing to give up its secret until the troops have touched its crest.

To add to the difficulty the tropical rainy season set in today and for twelve hours the uniforms of the men caught them under foot, and a mist closed down and shut out the position of the enemy. This discomfort was borne by all alike. Buller and his staff are virtually living the life of the private. There has not been even a tent to cover the commanding generals. They eat from their knees with their shoulders against a rock. They sleep where they can, and their field work is carried on under a transport wagon.

CAPE TOWN JOLLITIES.
Cape Town, March 1.—The news that Ladysmith had been relieved last night was officially promulgated at about 10 o'clock, and the city was like wild. The town became wild with delight, the residents parading the streets and

flags and hunting being generally displayed everywhere. Throngs of people crowded in front of the government houses, hurrahing and singing.

CRONJE IS A PHILOSOPHER.
Accepts Situation With Fortitude and Smiles Grimly.

New York, March 1.—A dispatch to the Herald from Paardeburg says:
"It was a picturesque scene when Cronje was brought to Roberts at his headquarters. A heavy shouldered, almost humped man, heavily bearded, heavy lipped, clad in farmer's dress, wearing a broad-brimmed felt hat, lumbered along on a little gray Boer pony, followed by an escort of Laniers. Dismounting, he found himself before little, wiry, dark-knit Roberts."

It was the greatest contrast possible, but Roberts, who was wearing his sword, that made him look six feet high. Cronje, who was a dignified simplicity, accepting with a bow the hat which Roberts himself proffered him. They talked together for some minutes. Cronje's secretary, Keeser, interpreting, Cronje said it was impossible for him to hold out against the British. He had to recognize the inevitable. The Boer leader showed no emotion at his situation, accepting it with fortitude, even accepting it with a dignified simplicity, accepting it with a bow the hat which Roberts himself proffered him. He had lost his territory. Between 2000 and 4000 prisoners marched out of the laager, as well as Mrs. Cronje and her grandson, who accompanied the commandant. The Boer leader said: "The Boer leader is MacDonnell, who is nursing his wounded foot and talking of the Boer leader. He thought that the victory was cheaply bought."

It was a gruesome sight, when the river, which had been swollen by night rains, carried through the main camp thousands of dead horses and oxen washed from the banks of the river, where they had been killed by shells. This proves the awful execution which our guns did and also the terrible conditions from which Cronje and his men were freed. Some were seen floating in the river.

DID NOT DESTROY GUNS.
Ammunition and Guns in Cronje's Laager Practically Intact.

London, March 1.—With such determined enemies, says a special correspondent telegraphing from Paardeburg under date of Feb. 27, one would suppose that the Boers would have destroyed their guns, small arms and ammunition before their surrender. The only thing injured, however, was a Vickers-Maxim piece, which had been hit by a British shell. A British officer and nine British soldiers, who were prisoners, had been provided with deer holes by the Boers and kindly treated.

The Boers inquired anxiously whether the British were in possession of the British. When the order came for the Boer prisoners to be taken to the British camp, they took all that they could carry of such things as pots, pans and blankets, throwing their rifles in two heaps that gradually increased to huge proportions. As the food had been swollen by a heavy rain, the Boers took off their trousers and waded across. The scene looked like play rather than war. The men laughed and splashed each other in the water, but among them were some grimacing. Some looked with disfavor upon such sportsiveness.

MAKING REPELS ASSAULTS.
London, March 1.—A special telegram has been received that a from Cape Town says that a from Paardeburg announcing that the Boers made a severe and protracted assault on Feb. 17, but were driven off at all points. The truce, which was usually observed Sunday was broken the 18th by a fierce attack, but after determined fighting the Boers were repulsed with a loss of forty killed and wounded. The defenders, who were able to take advantage of the shelter of earthworks, lost only two killed and three wounded.

OCCUPATION OF COLESBERG.
London, March 1.—The war office has received the following dispatch from Lord Roberts at Paardeburg:
"Gen. Clements reports that on hearing Colesburg had been evacuated he sent a force to occupy Colesburg Junction and rode into Colesburg, where he received an enthusiastic welcome. He secured a certain amount of ammunition, arrested several rebels and then returned to Rensburg. He reported the railway line clear and working to Laveleleman's siding. He will report tomorrow as to the few culverts which have been blown up. Colesberg and Colesburg Junction are held by our troops."

ASKING ABOUT TROOPS.
Melbourne, Victoria, March 1.—The secretary of state for the colonies, Joseph Chamberlain, has called to the Australian government asking whether they would be able to send additional troops to South Africa in the event of imperial troops being required elsewhere.

BOER FORCE REPORTED.
Paardeburg, Cape Colony, Feb. 28.—The Boers are reported in force to the southwest. The British are well and cheerful.

DOINGS OF CONGRESS

Industrial Commission Submits a Preliminary Report on Trusts to Congress.

METHOD OF CONTROL

Recommended, of Which Publicity Is a Feature---Punishment By Fine

Washington, March 1.—The industrial commission today submitted to congress a preliminary report on trusts and industrial combinations, together with a list of questions, which should be asked in order to show the effects of prices, etc. The commission makes the following recommendation as to how information should be obtained: "The organizers of corporations of industrial combinations which seek to the public to purchase or deal in goods, should be required to furnish full details in regard to their business for sale and intelligence as to the market, in which they fail to give this information, or which gives false information should be required to furnish a full list of the business, together with the powers of the various officers, should be required to furnish a full list of the corporation, which should be open to inspection. The directors or trustees should be required to report to the members of such corporations its financial condition in reasonable detail; to furnish the members of the corporation their meetings or otherwise, and to furnish them before annual meetings a full list of the assets of the corporation, and the several holdings, and to provide, in whatever way may be desired, for the members of the corporation, means whereby the members may prevent the misuse of their property."

annually a properly audited report, showing in reasonable detail their assets and liabilities, with profit or loss. Such report and audit to be under oath and to be subject to government inspection.

prescribe the methods of keeping accurate counts of railroads, and to demand reports in such detail as it may require, but also to inspect and audit such accounts; that the decisions of the commission may be made operative at a date fixed in the decisions, and to remain in force unless reversed by the court on appeal.

prescribe classifications of freight articles, and to make rules and regulations for freight transportation throughout the United States, and the penalties for violations of the interstate commerce act should be appropriate fines against the carrier and not imprisonment of officials.

Commissioner Clark concurs in all recommendations except that he believes rates fixed by the interstate commerce commission are not justified.

CRAWFORD ON NOVELISTS.

fresh, ruddy complexion and energetic blue eyes, and although an American by birth, he looks like a healthy Englishman and has somewhat the action of one, says the New York Commercial Advertiser. He expressed a pleasant Englishman's attitude toward literature. Told that a Russian novelist, living in

"It is true that to be successful in an
degree today a writer in English must

women, mainly for young women, and wholly for respectable women. European novelists write for a different class of people, and their subject and treatment are therefore different. The subject of sex must be always entirely excluded from successful novels here, for the reason that they are intended to be

Cravford, "that the foreign novelist re-ferred to. He said that almost all con-temporaneous literature was a mere ex-tension of the school readers, innocuous and rather insipid. He thought that the writer could not express the ideal nearest to his imagination if he always

ever, needs not only imagination, but skill. There are many men with wonderful imagination who cannot write, who cannot handle the English language. If a writer knows how to choose his words he can, after all, say a great deal about most subjects, even in English."

"I say about everything I want to say as it is. I have said some pretty tall things in my books. I don't believe in the submerged genius. I happen to know a good deal about publishers, and I can assure the submerged genius that publishers are not interested in him."

Even a thing impossible to an American public, if it were otherwise strong, the publishers would change until they could use it. They have competent persons employed to read, pass judgment, and suggest revisions. I believe that a novelist is a result of a demand. Co-

vate, mainly to please. I don't believe the novel ought to instruct. The story is the great thing. Therefore, I don't believe in problem novels, what they call realism. What a novelist needs in order to succeed is energy above all else. But he also needs to be very poor. No man with money w

Proceedings
of the County
Board.

A letter from a taxpayer, published in
another column of
this issue, enters
complaint against the
publication of the official proceedings of
the county board in a weekly newspaper,
which has a very limited circulation and
practically no readers in Duluth. He in-
sists that the board should publish the
proceedings in one of the Duluth daily
papers, which circulate extensively through-
out the county. The taxpayer says, however,
in asserting that the doings of the board
are not reported by the Duluth newspa-
pers. They present reports of the prin-
cipal things done by the board, yet there
is a possibility that some matters of
great importance to the taxpayers may
not be noticed and thus escape the pub-
licity they would receive if the official
proceedings were published in one of the
Duluth papers. The Evening Star now
prints the proceedings in serial form, and
while the Star is a very good weekly pa-
per it has not a general circulation in the
county. The Herald has far more read-
ers in the true range towns than has the
Star, while of course the latter has very
little circulation in Duluth. Therefore it
is true, as the taxpayer claims that coun-
tarians, few residents of St. Louis
county now see the official proceedings of
the county board.

The proposal to
erect a permanent
home for the May-
nard school has met
with very general
approval and The Herald is pleased to
learn that there is a good prospect of
the necessary funds will be forthcoming
to erect a handsome building. There are
a number of people taking an active inter-
est in the matter, and it is hoped that the
scheme adopted to raise the required
fund is by "the endless chain" method,
and it should prove effective. There is no
other method by which an opportunity
can be given to so many people to lend
a helping hand to the undertaking. The
sum contributed individually by this plan
is small, but if the scheme be carried out
as it should be, the aggregate returns
will be large. This is not a new idea but
it is a good one, and the success that has
attended it elsewhere will no doubt be
repeated here. The Maynard school is an
educational institution that is of great
benefit to Duluth and every one should
be glad of a chance to help it along.

A New York dis-
patch reports that
Ship Subsidy
Measure.

Hill of the Great
Northwestern, just be-
fore his departure from that city, declared
that if the ship subsidy bill should pass
it would mean in effect political suicide
for those who voted for it. Mr. Hill is
quoted as saying: "I really don't care to
say much on the subject, but I will say
that if the bill is passed, the people will
bury the men who voted for it. They
will vote will mean their political suicide.
The West will have something to say on
this subject; mark my words on that.
The farmers who furnish the grain, the
stuff carried in ocean-going boats are
very much interested in this matter. What
is more, they will find a way to build
ships that will carry their goods, and
those ships will not be the fast Atlantic

liners, either. We ourselves are building
our own boats without any government
aid. We neither need it, nor want it, nor
ask for it. What ship the country has
already, and some of them are not much
good, will take three-fourths of the money
under this bill at the very outset. What
good will that be, and how will it develop
shipping? I am opposed to the bill, and
think it bad in principle and in effect."
The only people who will be benefited by
the bill, even as amended by some of the
Western members, will be the owners of
fast Atlantic lines and the shipbuilders on
the Atlantic coast. Why should they be
fatted at the expense of the people?

A BAD MEASURE PASSED.

The Republican party will enter the
coming campaign upon a platform of
starvation for the island of Porto Rico
that came to us with smiling face and
open hands. Casting aside all fair and
humane ideas, listening only to the de-
mands of the tobacco and sugar trusts
and urged by the lack of the party lead-
ers, the lower branch of congress has
passed the bill that sets up a tariff wall
between Porto Rico and the other parts
of the United States. The bill will go
through the senate without much trouble
and the weak, vacillating president, who
but a short time ago asserted that it was
"our plain duty" to grant free trade re-
lations to the Porto Ricans, will sign
the measure that the trusts favor.

This action by the house has been
taken in the face of a storm of protests
by leading Republicans throughout the
country, against the advice of prominent
Republican newspapers, and in defiance
of public sentiment on the question. The
Herald has quoted during the past week
extracts from many Republican papers
denouncing the imperialistic idea of
treating Porto Rico as a mere colony.

dependence and interposing trade bar-
riers between different parts of this
country. It is true that the Republican
house leaders changed the bill at the
last moment by making it a 15 per cent
tariff instead of a 25 per cent tariff, and
limiting its operation to two years, but
that has not improved the measure. As
the Minneapolis Journal says, the com-
promise "only makes a bad matter
worse." If it was estimated that 25 per
cent of the Dingley tariff on trade be-
tween Porto Rico and the United States
was necessary to raise the amount re-
quired for the government of that is-
land, of course 15 per cent will not pro-
duce the necessary revenue; so that, as
the Journal points out, while the prin-
ciple remains the same, the measure is
less objectionable, but it has not been
changed in the least, it loses whatever
justification it may have had on the score
of raising money to provide for the gov-
ernmental necessities of the island. As
the Chicago Times-Herald, another Re-
publican paper, says, "what is wanted
is absolute free trade with Porto Rico;
nothing less. A provisional two years'
tariff would be an utter absurdity, be-
cause the Porto Ricans desire relief and
a permanent settlement at once."

To the credit of the Republican
congressmen from Minnesota, they
voted against this unjust and indefen-
sible measure. Mr. Heatwole de-
serves the greater credit because he has
steadily opposed the bill from the start.
Mr. Fletcher voted against it because
of the many protests from Minneapolis,
and he deserves credit for properly
representing the sentiment of his dis-
trict. The feeling there is thus stated
by the Tribune, a staunch Republican
paper:

It is not exaggeration to say that
the news that a compromise had been
reached by which a tariff of only 15 per
cent is to be levied, was received with
indignation and surprise. While it
may have been the expectation of the
president and the Republican leaders at
Washington that the principle involved
would be lost sight of in view of the
extremely small tariff named, it is
plainly evident here that opposition to
the bill is stronger today than it was
before the compromise was agreed upon.

There is no division of sentiment
upon the subject, so far as can be ob-
served. Republicans, Democrats and
Populists are all in favor of free trade
with the new possessions of this coun-
try, and the issue is quite general
among Republicans that the passage of
the bill imposing a tariff upon Porto
Rico products will be a staggering blow
to the party which can only be partly
relieved by strong and vigorous op-
position in its behalf by the party in
power.

The first feeling of indignation is
being superseded by one of sorrow, for
there are many Republicans who will re-
fuse to be bound by any action taken by
the party in congress along that line.
One of the best known men in the city
said yesterday that if congress passed
the bill he would never take the stump
for any man guilty of voting for it, while
another declared that its passage would
cost the party in Hennepin county at
least 100 votes. Others predicted di-
mal things regarding its effect in the
state, and several made predictions that
the passage of the bill would mean the
defeat of the next Republican candidate
for governor. One speaker moved up-
on the speakership and said that he had
said yesterday that if congress passed
the bill he would never take the stump
for any man guilty of voting for it, while
another declared that its passage would
cost the party in Hennepin county at
least 100 votes. Others predicted di-
mal things regarding its effect in the
state, and several made predictions that
the passage of the bill would mean the
defeat of the next Republican candidate
for governor. One speaker moved up-
on the speakership and said that he had

for any man guilty of voting for it, while
another declared that its passage would
cost the party in Hennepin county at
least 100 votes. Others predicted di-
mal things regarding its effect in the
state, and several made predictions that
the passage of the bill would mean the
defeat of the next Republican candidate
for governor. One speaker moved up-
on the speakership and said that he had
said yesterday that if congress passed
the bill he would never take the stump
for any man guilty of voting for it, while
another declared that its passage would
cost the party in Hennepin county at
least 100 votes. Others predicted di-
mal things regarding its effect in the
state, and several made predictions that
the passage of the bill would mean the
defeat of the next Republican candidate
for governor. One speaker moved up-
on the speakership and said that he had
said yesterday that if congress passed
the bill he would never take the stump
for any man guilty of voting for it, while
another declared that its passage would
cost the party in Hennepin county at
least 100 votes. Others predicted di-
mal things regarding its effect in the

NO LIMIT TO FUNDS

Witness Campbell in Clark Case Says. Daily Furnished Money Unstintingly.

SWARMS OF SLEUTHS

Hired By Daily Men Looking Up Evidence and Watching Witnesses.

Washington, March 1.—When the senate committee on elections resumed its sessions today, Representative Campbell, who was on the stand yesterday, was cross-examined by Mr. Faulkner. He said the organization of the movement for the investigation of Clark's election, he said the first meeting was held in Butte last March, those present being Mr. Hartman, Marcus Daly, H. L. Myers, Speaker Stiff, Mr. Tully, Mr. Meigs, Mr. Tuley and Mr. Evans. A committee was then appointed, with Mr. Campbell as chairman, to gather facts.

"Mr. Daly said at that time that he would furnish any necessary money for the investigation," said the witness, "but that he would not expect that there would be any limit placed upon the amount to be expended, except that it should be for the purpose of defense, but not a cost for offense."

Continuing, Mr. Campbell said that no sum had been deposited to his credit, and that when he wanted money he went to Daly for it, except in one occasion, when Mr. Meigs gave him a check of his own for \$100 and one of \$500 from Mr. Legett. "Each these checks had, however, been returned."

"At this point Faulkner presented letters which Campbell had written to detectives whom he had employed in the case, first drawing from the witness that the detectives had been engaged in Montana, in Washington and in New York. In Montana they were engaged to look up evidence and watch witnesses, he said, but that he was not sure if they were not paid."

"Were your witnesses in Washington," he was asked, "instructed to visit dentists, surgeons, doctors, etc., who were connected with Senator Clark?"

"No, sir; positively no," was the reply. "If such a course was pursued it was without my knowledge or consent. I never gave any such instructions, and I now have no knowledge of such a proceeding. If I knew of such a course being pursued I would stop it immediately."

"Did you instruct the detectives to investigate themselves, and the good graces of Clark's friends?" he was asked.

"I did," was the reply. "I told them to look up evidence and watch witnesses, and to get into their good graces in any way they could."

"The witness was questioned concerning his connection with 'Savage' Murphy, the witness said that he had been in Montana, and also with 'Tom' McLaughlin, Campbell said that Murphy had been in Montana, and had acted to make an affidavit in the case; that he (Campbell) had put the statement in affidavit, but that he had no suggestions as to what he or McLaughlin should testify to. He never asked the grand jury to grant special immunity to Murphy."

INQUISITION.
Editor Stewart Thus Styles the Court That Examined Wardner Prisoners.

Washington, March 1.—Editor Stewart, the newspaper publisher atullan, Idaho, today continued his testimony before the house committee on military affairs concerning the late trouble in Idaho. He said that on June 8 his newspaper printed a statement by a detachment of soldiers, causing him considerable loss.

The witness said that throughout his detention he was given no trial except before the kangaroo court. He said that this was the name applied to an "inquisition" carried on by a local official, not a magistrate. He detailed a conversation with one of these officials, in which the latter said to have asked Stewart to resume publication of his paper "on the side of law and order," threatening that if the publication continued to be as it had been Stewart might expect to remain in the "bull pen."

J. D. Leffingwell, agent of Jacob Little's production, "Sporting Life," is in the city today.

H. R. Ensign, of Minneapolis, is at the Spaulding.

G. A. Thompson, of Montreal, is in Duluth today.

R. B. Clark, of Minneapolis, is in the city.

C. S. Cowles and W. H. Crandall, of St. Paul; W. J. Grier, W. B. Leach and R. E. Hurd, of Minneapolis, are in the city today.

W. D. Boyer, the Chicago publisher, returned last evening from a trip to Grand Rapids, where he was with a Minneapolis engineer, considering some features in connection with the establishment of a paper mill.

W. D. Washburn, Jr., of Minneapolis, was at the Spaulding last evening.

Charles Avery, of North Branch, was at the Spaulding.

Mrs. Julia B. Dean, of C. where she will remain four or five weeks.

E. C. Wiegman, who has been connected with the Duluth Planting mill for the past ten years, secretary and estimator, will leave Duluth Monday next to accept a similar position of the original Duluth Planting mill.

Stash and Peter, company of Minneapolis, Rev. A. B. Threlk, returned from Ashland today.

James Corrigan and Price McKinney, of Cleveland, returned from the city yesterday.

Mr. McKelvey is at the Spaulding.

Frank D. Adams, of the legal department of the Duluth, Missabe & Northern Railway, is at St. Mary's hospital with illness.

Mrs. N. M. Threlk and family have gone to join Mr. Marcus in New York, where he is permanently located.

STATE SCHOOL APPORTIONMENT.

County Gets a Considerably Larger Amount Than Usual.

County Auditor Halden has received notice from the state that the share of the state school apportionment this county gets is \$10,212.25, at the rate of \$1.25 per pupil for 12,169 pupils, the number in the county. Out of this amount, the number in the district of Duluth will get \$10,000 for 8,000 pupils. The amount per pupil is higher than usual. Last year at the March apportionment the rate was only of cents to the pupil, so the county only got \$10,000. The number of pupils this year is larger, and the number of pupils in the county and the city on which the apportionment has been based for the last three years, is as follows:

Year. City. County. Total.

1897. 10,000. 12,169. 22,169.

1898. 10,000. 12,169. 22,169.

1899. 10,000. 12,169. 22,169.

The number of pupils is obtained from the report of the county superintendent for the year ending July 31, 1899, and as this year's report is expected to show a very large increase in the number of pupils both in city and county, next year's apportionment will be still larger.

Caught in Minneapolis.

James Harkins, the prisoner that escaped from the "Chicago" train, was arrested in Minneapolis for petty larceny. He was sentenced on Jan. 12 to six days hard labor on a similar charge, but four days later gave the keeper of the chain gang the slip and that night on the St. Paul & Duluth train he was caught in the city. He stole a watch from an Italian. The conductor locked the door of the train, and the watch hid behind the water tank. The Minneapolis officials ask if a reward

FUN FOR ALL SIDES

Huge Gains Five and Then Truelsen Spurts Four and Possibly Five.

NINETEEN TO COUNT

That Number of Precincts Remain—Gibson's Chances Are Knocked Silly.

The recent tally was decidedly sensation and nerve-wrecking. With the close of the count in the first precinct of the fifth ward last evening, Truelsen seemed doomed to suffer a defeat at his own game. Hugo gained five votes in this precinct by a miscount, but today's returns show a clear gain of four for Truelsen, leaving the successful man of three contested elections with as good a chance as ever to win out.

Another turn of the wheel has sent Joseph B. Gibson's chances for election in the contested aldermanic situation in the fifth ward where the war line is still in the balance. Victor Johnson gained three votes on the face of the tally sheet tonight in the heavy precinct, while Truelsen's gain of two, made yesterday, in the third precinct. As the situation now stands Johnson has every advantage. There is one doubtful tally, which at best can only result in another tie.

The charter continues to make steady gains, and the western precincts of the city only count in every ward. At noon today conservative estimates indicate that the original margin of 15, by which the Hugo side was defeated, has been partially offset by a net gain of seven in twenty-three precincts, which means that if seven more votes can be obtained in the remaining nineteen precincts, the Hugo side will win.

Last evening after the Truelsen interests were plunged into the deepest depths of despair by a single turn of the ballots of one precinct, up to the time the commission opened the box of the first precinct of the fifth ward, Truelsen had made a net gain of six in twenty-three precincts, and was making rapidly but small gains in every ward.

In this precinct, however, the judges of election had counted two ballots for Truelsen, which clearly belonged to Hugo. This took two from Truelsen's original total and added two to Hugo's.

Hugo's lead of five, according to the roughly disintegrated parties, clearly belonged to Hugo. When this was given out the Hugo stock was soaring, and the morning's proceedings have been fraught with the most bitter parting shots and the most heated arguments on all sides. If the count shows the slightest gain one way or the other, the side that has lost insists it will not count, and the other side insists it will.

The return of the judges of election gave him 112 against Truelsen's 92. The result gives Hugo a lead of three votes. Truelsen insists a new lease of life and most relieved feeling in the pit of the stomach. The charter, which received 101 affirmative votes on the first count was given 107 on the recount, showing a gain of three.

But what was one man's gain was another's loss, and the unofficial canvass on alderman gave Gibson 55 and Johnson 30, on the face of the tally sheet tonight. This is a loss of one on Gibson's first total and an increase of two on Johnson's original count, making a net change in favor of Johnson of three.

The precinct of the fifth ward was then taken up and counted and recounted, until it was announced that Truelsen had gained 290 in the face of the tally sheet, and possibly another 20, making a total of 310. This question of the fifth ward, which is the most important of the city, is the subject of the most heated arguments, and the most degraded and could not be put into print. The man who wrote it must be a disgrace to his manhood and morality and a blot on the name of the city.

It is an open question whether this tally will be allowed by the court. Leaving this matter to the court, Truelsen is but a single vote behind, as nearly as can be estimated. This precinct originally gave Hugo 54 and Truelsen 96. The latter is unchanged on the recount, except that three ballots are declared doubtful by the Republicans, while the fusionists declared two doubtful against Hugo. With the doubtful ballots out of the situation, Hugo lost two.

At the time of closing for lunch eighty-seven ballots had been held away for the court to pass on. This includes blank and doubtful ballots on the charter, but it is said there are seven more Hugo ballots in dispute than there are Truelsen votes.

From present indication the recount will be finished on Monday evening. The commissioners in four and one-half days have counted 125 ballots, and while there are still nineteen precincts to count, the vote will be comparatively small, not numbering over 200. In case irregularities are found in the Seventh ward, which the Truelsen interests claim is more than probable, the count may be delayed and possibly not finished before the time the new administration goes in on Monday.

Mayor-elect Hugo will be inaugurated Tuesday, unless present plans are changed. It is understood that he will also make his appointments on that day. While Truelsen is still counting to hold office if his attorneys advise it, but there will be no shooting. The mayor-elect is small, but both sides admit that it is large enough to hold two mayors for at least one day.

15c for 3-quart Heavy Dinner Pails, oval shape, two cases with cup.	3c for Children's Mugs in silver tint, nicely embossed, very pretty.	5c for nickel plated cold handled Fire Pokers—the best made. See them.
5c for twelve packages of Carpet Tacks, full size and sold by tacks, 8, 10 and 12 ounce. A bargain.	5c for decorated Earthen Cuspidors, full size and sold by others at a bargain for 10c.	3c for gravy or Soup Strainers with ringed handles—made of bright tin.
3c for box of the old reliable Sun Paste Stove Polish. Just what you need.	1½c each for China Nest Eggs. Warranted strictly first quality. A bargain.	15c for good hair Shoe Brush with dauber attached—hardwood backs.
	5c each for Earthen Vegetable Dishes in yellow or cane colored ware, worth 10c.	5c for decorated Tin Cuspidors, assorted colors—very pretty.

NEARING THE END

The Testimony in the Clark Hearing Is About All In.

MONEY FOR PAPERS

Witness Campbell Gives the Amount Spent on Newspapers by Daily Faction.

Washington, March 2.—When the senate committee on elections resumed its sitting today, Campbell, still on the witness stand, made a general statement of his expenditures in connection with the prosecution's case against Senator Clark. The statement showed the following footings: Establishing and purchasing newspapers, \$19,550; expenses in the present investigation and in the Wellcome disbursement proceedings, \$9,794.

Mr. Campbell said that the \$19,550 had been expended on the three papers, the Livingstone Enterprise, the Bozeman Chronicle and the Carbon County Democrat, which had been purchased or established to oppose what they believed were corrupt practices in politics. The money in those cases had only been loaned. The other expenditures included all money spent to date on account of witnesses, attorneys and detectives in the prosecution of the case. It did not, however, include counsel fees in the pending investigation.

Campbell did not know what these charges would be. All the money thus expended had been received from Mr. Daly.

State Senator Henry F. Myers was recalled and questioned concerning Ben Hill's statements. He said that Hill's statement in his affidavit concerning himself was correct, while Hill's statement before the committee relating to it was a typographical error. He said that Hill had told him that Clark wanted him to come to his room, and that he (Hill) could get him \$25,000 for his vote. He had told Hill that he thought \$10,000 was enough for his vote, and that if Clark wanted to pay that sum for it he could put the money in Mr. Whiteside's hands.

Mr. Myers was also asked if it was true, as Charles Clark had stated in his affidavit, that he had told Hill to check out to him by Clark was merely a statement. "That statement," he said, "is absolutely false. If the check had been received, it would have been paid. I should certainly have acknowledged its receipt; I do in all business matters. When I received the check I regarded it as a bait to a bribe and I ignored it, as was proper I should."

James W. Kemmer, a real estate dealer of Duluth, was examined with reference to the indebtedness on the ranch of Representative E. B. Wood, of Ravalli county, which indebtedness had been paid by the purchase of a piece of land being \$3000. Documentary evidence was also produced by the prosecution to show that about \$30,000 of a chattel mortgage given by Woods for \$1000 had been paid and released.

Miles Finlen, a member of the legislature from Silver Bow county and a friend of Mr. Daly, said that he had not furnished any of the \$30,000 used by Whiteside in his exposure.

"I don't give money up so easily," he said. Before taking the noon recess, the attorneys on both sides expressed the opinion that it would be possible to conclude the presentation of testimony today or tomorrow. Mr. Faulkner said he would offer very little testimony in rebuttal.

The Saturday Club.
The program for the Saturday club meeting tomorrow is as follows: Current events—subject will be "English History," and will cover the period from 1066 to 1485.
"Charles' Anxiety Over Ransom Affair," by Mrs. F. H. Barnard.
"Hampton's Recuse to Pay Ship Money," by Mrs. H. J. Grant.
"The Book of Canons in 1529," by Mrs. J. Jones.
"Journey of the world," by Mrs. J. W. Harrison.
"The Short Parliament," by Mrs. W. A. McGonigle.
"The Long Parliament," by Mrs. J. C. Swan.
"Ball of Attitude," by Mrs. M. L. Landon.
"The Army Plot," by Mrs. H. J. Grant.
"The Irish Uprising," by Mrs. J. W. Harrison.
"The Grand Remonstrance," by Mrs. W. J. Stevenson.
Leader—Mrs. W. J. Stevenson.

No Owns the Mill.
In its special correspondence from Swan River this morning, the News Tribune reported that "S. C. Lawlor, formerly of the St. James hotel, Duluth, who took charge of the Pease sawmill on Swan river has resigned. John McGregor is the proprietor of the mill. It is hardly likely that he 'resigned.' He says he went up there last week and closed the mill until such time as he can install new management."

The Flaxton Concert.
The Flaxton concert which will be given Sunday afternoon will doubtless prove to be one of the most popular of the winter. The selection are all of a character that please the popular taste. Mrs. Robert L. Knebel, who is the soloist, is one of the very best sopranos at the head of the lakes and is always heard with great pleasure.

MRS. WINSLOW'S SOOTHING SYRUP.
Has been used for over FIFTY YEARS for all the little ailments of CHILDREN. WHILE TEething, COLIC, WIND COLIC, and is the best remedy for DIARRHOEA. Sold by druggists in every part of the world. Be sure you ask for "Mrs. Winslow's Soothing Syrup" and take no other kind.

Look at yourself! Is your face covered with pimples? Your skin rough and blotchy? It's your liver! Ayer's Pills are liver pills. They cure constipation, biliousness, and dyspepsia. 25c. All druggists.

Want your mustache or beard a beautiful brown or rich black? Then use the BUCKINGHAM'S DYE. It's the best. 50 cts. per box. Sold by all druggists.

ROOT STARTS FOR CUBA.

Leaves With a Party For a Two Weeks' Trip.

Washington, March 2.—Secretary Root left Washington today for a flying trip to Cuba. With him were Mrs. Root, Miss Root, Edward Root, his son; Col. Carter, assistant adjutant general; Private Secretary W. S. Courney, and Arthur Brooks, attendant. The party had a special car over the Southern railroad. It is expected that the trip will occupy about two weeks, allowing for a week's tour around the island of Cuba. The army transport Sedgewick is on her way to Tampa and the party will embark on her tomorrow for Havana.

It is known that the main object of the trip is to enable Secretary Root to confer personally with Gen. Wood and as the latter will accompany the secretary on his tour around the island there will be ample opportunities for such conferences. It is gathered from rather urgent communications that have been received here from Havana that notwithstanding the apparent severity of conditions in Havana and Cuba generally, Gen. Wood has reason for grave apprehension as to the future; not because of the possibility of outbreaks, but rather owing to the extreme gravity of important questions that are pressing from all sides for immediate decision.

What Was His Crime?

To the Editor of The Herald:
In the News Tribune this morning I read the following: "The magic hand of the galley boy was seen in the first sentence of an editorial in yesterday morning's News Tribune, and the result was a typographical error. That holds the record." As I had glanced over the editorial page of the News Tribune yesterday and noticed nothing unusual, this statement somewhat surprised me. If it is possible, I thought, that the Willcuts-Morris organ had expressed an opinion on the Porto Rican tariff bill, and the magical hand of the galley boy had ruthlessly snatched it up and prevented the public from being enlightened on this important question? Had the News Tribune denounced the tobacco and sugar trusts for pulling the wool over the eyes of our innocent little congressman and leading him to forget the duty that he owed to his constituents and had the naughty galley boy, acting in cahoots with the sugar trust, spoiled the sentence and prevented the News Tribune from showing how an unsuspecting and virtuous congressman was flim-flammed? As thus I indulged in conjecture, I turned to yesterday's News Tribune and again examined its editorial. No, it was in vain. I cannot find anything out of the ordinary. The articles display as much

25% 25% Stock Reducing Sale.

CHAN SMITH, Sec'y.

RODE DOWN THE MOB.
"I shall never forget the commanding presence and splendid coolness of Sir Charles Warren, who has just defeated the Boers at Spion Kop, as I saw him one Sunday during the bread riots of '88 and '89 in London," said a Detroit man the other day, relates the Detroit Journal. "There had been meetings of all kinds. The Socialists were losing no opportunity to promulgate their doctrines. Mrs. Besant and her ilk were adding fuel to the flames. 'Finally it was announced that on Sunday the whole mass of starving, wretched, wild-eyed, hollow-cheeked men and women would meet in Trafalgar square. By midday it was estimated that 100,000 people were packed in the square. A policeman tried to hustle a little knot of radicals. He was lifted by his feet, passed over the heads of the crowd and thrown crashing through a plate glass window into Tiger street. This made the mob laugh. The majority were sullen rather than ugly and they laughed rather than scorned."

"The streets had become impassable. There had long been cries of 'The soldiers! the soldiers!' I had seen them forming in St. James' palace courtyard, and was momentarily expecting their appearance. Fearing trouble, I secured, at large expense, a seat on the knife board of an omnibus, which had been pressed by the authorities, and was being driven around and around the square to break the ranks of the rioters."

"The cry deepened into a roar. There was madness in it. Sir Charles Warren appeared on horseback and in full uniform, attended by his aids. By the time the first burst of anger had subsided, I was near to Sir Charles. He raised his hand to secure silence and for a space of several hundred feet about him there was a pause, a silence so terrible that it seemed like a vacuum in which one could not breathe."

"The riot act was read. Very few of the assembled thousands could have heard. The rear began to press forward. The crush was killing. Just at this critical point there was a bugle sound, followed shortly after by the appearance of that magnificent regiment on black chargers—every man of them a picture, every horse an inspiration, every face stern, gazing straight ahead."

"Sir Charles looked the picture of dignity and sorrow. Those near could see for themselves that to ride down his countrymen was almost the stuff of death to him. I heard him mutter something about 'crushing Englishmen.'"

"The rest is in my mind a sort of wild confusion. My omnibus was nearly overturned. People were forced in and under it and the horses were wedged in. After a while I saw a long line of soldiers stretching across the square. Their black chargers were protected at vital points by breast-plates and coats of mail, so close together they seemed a living wall. There was a quick order of 'Forward!' a mingling of men and horses, hoarse cries for revenge, murder and mercy, and the black wall moved steadily on, driving before it a writhing, cursing, struggling mass of humanity. The tenderness of Sir Charles' face had gone. Only stern impassiveness remained."

"Mrs. Besant clung to a railing, but was dragged away, her hands cut and bleeding. The square behind the regi-

we batter the frail barrier of high-priced opposition. In our onward progress our great army of patrons swells to greater proportion. Each day, each week—with values like these—we add to our triumphs.

Tomorrow Men's Suits

\$15.00

When our Mr. Burrows was last week he got a decided snap on about 15 styles of handsome tailor-made heavy-weight suits, suitable for present and spring wear in this climate—These Suits are beautifully made up from fancy striped wools, black and blue chevrons and serge; also some handsome checks and plaids in Scotch Tweeds. These Suits are made up single and double-breasted Suits and Frocks, with single and double-breasted Vests. If we had bought these Suits in a regular way, we could not think of selling them at this price, and they are as good in every respect as you'll pay a tailor \$25 to \$30 to make to your measure—Tomorrow your choice at FIFTEEN DOLLARS.

Other Suits at \$7.50, \$10.00 and \$12.00.

Tomorrow Men's Overcoats at

\$15.00

New ones for present and early spring wear. ANOTHER SNAP picked up by Mr. Burrows while East. About 4 styles in this lot every one a perfect coat—couldn't be better if some snail tailor made them and charged you \$30.00. These Coats come in light and dark gray Coverts, Drab and Tan Coverts, and the New Dublin Twist Cambridge, with the new coat idea. Fine velvet collar, silk-faced front—These Coats at \$15 are the best values we have ever sold at the money.

OUR BOYS' CLOTHING DEPT.

The most rapidly growing part of our business—developing phenomenally, because practically competitionless—now invites your attention and patronage by virtue of the grandest values any store in Duluth was ever able to place before the public. When we talk of our Boys' Clothing we get enthusiastic—there is an individuality about each of the countless styles that greet your eye—poems in silk and wool—perfection of tailoring and taste—AND PRICES—you'll be astonished how much beauty and sterling quality a dollar will buy here nowadays.

STATIONERY
CO.OLD TREATY
IN FORCESecretary Hay's Views on
Building Warships on the
Great Lakes.

CANAL IS SO SMALL

That Only Third-Rate Vessels
Could Be Sent to
Atlantic.

Washington, March 2.—It is shown clearly by correspondence transmitted to congress by Secretary Hay that the administration is heartily in favor of modifying the Rush-Bagot treaty so as to permit the building of warships on the lakes. This correspondence is in response to a letter written to Senator McMillan of Michigan asking if the treaty does prohibit the building of warships on the lakes, and if it is possible to secure through negotiations modifications which would allow the building of warships on those waters.

Secretary Hay says the full history of the negotiations which resulted in the arrangement between the United States and Great Britain for disarmament on the great lakes, and a history of the event attending its signing, was sent to congress by President Harrison on Dec. 7, 1882. The correspondence since that time was submitted to congress today in his letter of transmittal Secretary Hay says:

"An arrangement was reached between the governments of Great Britain and the United States on May 26, 1889, for the creation of a joint high commission to which should be referred for settlement various pending questions between the United States and Canada, among which was a revision of the agreement of 1817 respecting naval vessels on the lakes."

"Instructions given to the American commissioners," continues Secretary Hay, "on the subject referred to as respecting the view of the government of the United States, were that it was desirable to secure a declaration of recognition that it was not contrary to the true spirit and intent of the arrangement of 1817 to build vessels of war on the great lakes or in its ports, provided they were not to be used or maintained upon those lakes. It was held that the evident meaning of the arrangement, especially when received in the light of the correspondence leading up to it, was that only such armed vessels as described should be maintained on the lakes."

"In 1871 the great lakes were independent inland waters. Lake Ontario was shut up by the rapids of the St. Clair river and Lake Superior in turn was separated by the rapids of Sault Ste. Marie. There was no navigable connection between them and the ocean. Under such circumstances, so long and the vessels on the lakes meant to maintain them there, and to use them for no other purpose than a part of the permanent armament. The language of the treaty, therefore, was not improper at the time to convey the idea intended."

advantages for the construction of certain classes of war vessels, and the facilities in this respect are capable of large extension and development, which in the future may be of inestimable value to the United States. For these reasons the government regards it as entirely consistent with the spirit of the arrangement of 1817 to use these naval facilities and to do so upon a full understanding with Great Britain that its building of war vessels on the lakes is in no way hostile to the arrangement of 1817, and to increase the permanent armament to be maintained there."

The American members of the commission were therefore instructed to secure some arrangement whereby, under proper conditions, such vessels should be constructed and passed through the Canadian canal to the west of the United States on the Atlantic ocean."

IN MICHIGAN.

Rich Find at the Elm River—

Lorraine May Be Worked.

Houghton—A blast in the bottom of No. 2 shaft at the Elm River mine disclosed a showing of rich rock, heavily charged with stamp copper, much richer than anything that has been found heretofore at this mine. This shaft is now about 100 feet deep. It has been rather lean and bumpy, and not well defined, but this find seems to prove the assertion made recently that the Elm River is improving with depth. It is the impression among those best posted that the upper portion is of the best quality of the ore. The Elm River mine is the property of the Michigan Consolidated Copper Company, which makes its appointment reasonably certain.

The Arnold mine and its neighbors, the Humboldt, Meadow and Ashbed, are expending a coal famine. A large number of wood choppers have been engaged to supply wood for fuel at all the boilers on the locations, including the Arnold and the Humboldt. The Elm River mine is now upward of fifty wood choppers working now, and this number will be increased to 100 if they can be secured.

The Baltic Mining company has closed

SILBERSTEIN & BONDY CO. SILBERSTEIN & BONDY CO.

Can you tell us of a Store hereabouts that has made such rapid gains as has this one within the past year?

DO YOU KNOW of any merchants anywhere who have tried to be as progressive as we have? Not only in our

method of Merchandising, but in our store service?

We promised you barely one year ago that this store would double itself in one year—and it has—but promises are not everything—every store can make them—and, easy enough—but, to live up to them,

to do exactly as you tell patrons you are going to do. We are building this store up because we believe the people want to see it built up—we want

you to feel that this is your store—we want you to feel that any goods bought here can be thoroughly depended upon—and we shall back it up

with our broad guarantee, which means a quick exchange or a refund of money for anything that is not entirely satisfactory. No ifs or ands about it, it must be right. We intend to please you at any cost. Of course, to give such broad, liberal

guarantees, a store's merchandise must be right: but we are looking after that part. Come back with everything that is not just right, and see how

anxious we are to please.

Tomorrow ought to bring many women

folks to the store who are looking for New Tailor-made Suits, Jackets, Separate Skirts, Silk Waists or the dozen and one other ready-to-wear articles.

We're more than ready to please the most critical. If you are thinking about having your Suit made, come and see us and get some ideas—'twill give

you many valuable hints.

The new Silks and Satins, the new Black and Fancy Dress Goods, the new Washable Dress

Fabrics, the new French Neckwear, the new Jewellery Novelties, the new Dress Trimmings, and dozens of other wanted articles are all ready.

DULUTH EVENING HERALD.

SEVENTEENTH YEAR.

SATURDAY, MARCH 3, 1900.

LAST EDITION.

TWO CENTS.

Combination Book Cases...

We call particular attention to two Combination Cases in the line which are similar to above cut, the only difference being that one is slightly larger than the other. They are both of handsome golden oak with mirrors and contain a convenient writing desk, a roomy book case, cupboard and drawers and a fancy cabinet top. These articles would cost 40 per cent more in most stores.

Style No. 1—Our price is \$9.50
Style No. 2—Our price is \$10.00
Everything sold on Easy Payments.

French & Basset,
Complete House Furnishers.

MONEY TO LOAN.

Any Amount—Lowest rates.
MONEY READY.

RUMOR OF A MEETING

President Kruger Said to Have Left Pretoria to See Steyn.

OBJECT A MYSTERY

Closest Observers Do Not Expect Any Sudden Cessation of Hostilities.

London, March 3, 2:27 p. m.—President Kruger is said to have left Pretoria for the intention of meeting President Steyn. The place where they will meet is not mentioned, but is believed to be somewhere in the Orange Free State. Those in South Africa who are conversant with the effect their recent reverses have had on the Boers express the opinion that the meeting of the two presidents is preliminary to negotiations for peace. But if this is the case, it must be due to the pressure brought to bear upon the presidents by the burghers and Afrikaners in the British colonies rather than the personal inclinations of the presidents, as all the available information depicts them as being as determined as ever to persist in the war until the resources of the republics are much more enfeebled than they seem to be at present, although some significance is attached to the consultation in view of the reported visit to England of Chief Justice Deville, Mr. Hofmeyr and Dr. T. E. Water, ostensibly on private business and for their health.

But the closest observers do not anticipate any sudden cessation of hostilities, and certainly the reports from the theater of war do not tend to encourage the advocates of immediate peace.

The Boers are apparently rallying with their accustomed ability to repair a temporary reverse, and Great Britain has yet to test their force as a defensive power under the new conditions of warfare.

Outside the meeting of the presidents, there is no news indicative of any change in the situation. Telegraphing from Oostfontein today, thanking the lord mayor of Liverpool for his congratulations in behalf of that city, Lord Roberts says:

"I trust her majesty's soldiers in this country will gain further successes as will speedily show the freedom and prosperity of South Africa."

DISCOURAGED THE BOERS.

Cornering of Cronje Caused Decision to Quit Ladysmith.

New York, March 3.—A dispatch to the Tribune from London says:

Gen. Buller, in a dispatch from Ladysmith, makes it clear that the Boers decided to raise the siege of Ladysmith immediately after they learned that Gen. Cronje was at the mercy of Gen. Roberts at Paardeberg. The British advance in Natal was then only opposed in order to allow time for the big guns and ammunition and stores to be safely removed north and west. That the Boers were not completely successful in carrying out this intention was owing to the fact that they were more or less demoralized by the Boers' victory in the battle on Tuesday. After the battle orders were evidently given for a hasty retreat to the passes, with the result that large quantities of ammunition and two guns were left behind. Virtually speaking, Natal is now clear of the republican forces.

Public interest in the war is already declining, since the end is a process of conclusion, and as may be the process which it will be reached. The relief of two garisons and the complete collapse of the Dutch plan of campaign leaves Gen. Roberts at liberty to concentrate his forces with the transport as his chief difficulty to be overcome.

NOT A BOER IN SIGHT.

Buller Finds There Are None in Ladysmith District.

London, March 3, 2:30 a. m.—The war office has received the following dispatch from Gen. Buller:

"Ladysmith, Friday, March 2, 6:30 p. m.—I find the defeat of the Boers more complete than I had dared to anticipate. This whole district is completely clear of them, and except at the top of Van Rensburg's pass, where several wagons are visible, I can find no trace of them."

Their last train left Madder Spruit station about 1 o'clock yesterday, and they then blew up the bridge. They packed their wagons six days ago, moving them to the north of Ladysmith, so that we had no chance of intercepting them; but they have left vast quantities of ammunition of all sorts, herds, camps and individual necessities. They have got away with all their guns except two."

ARMY FACING ROBERTS.

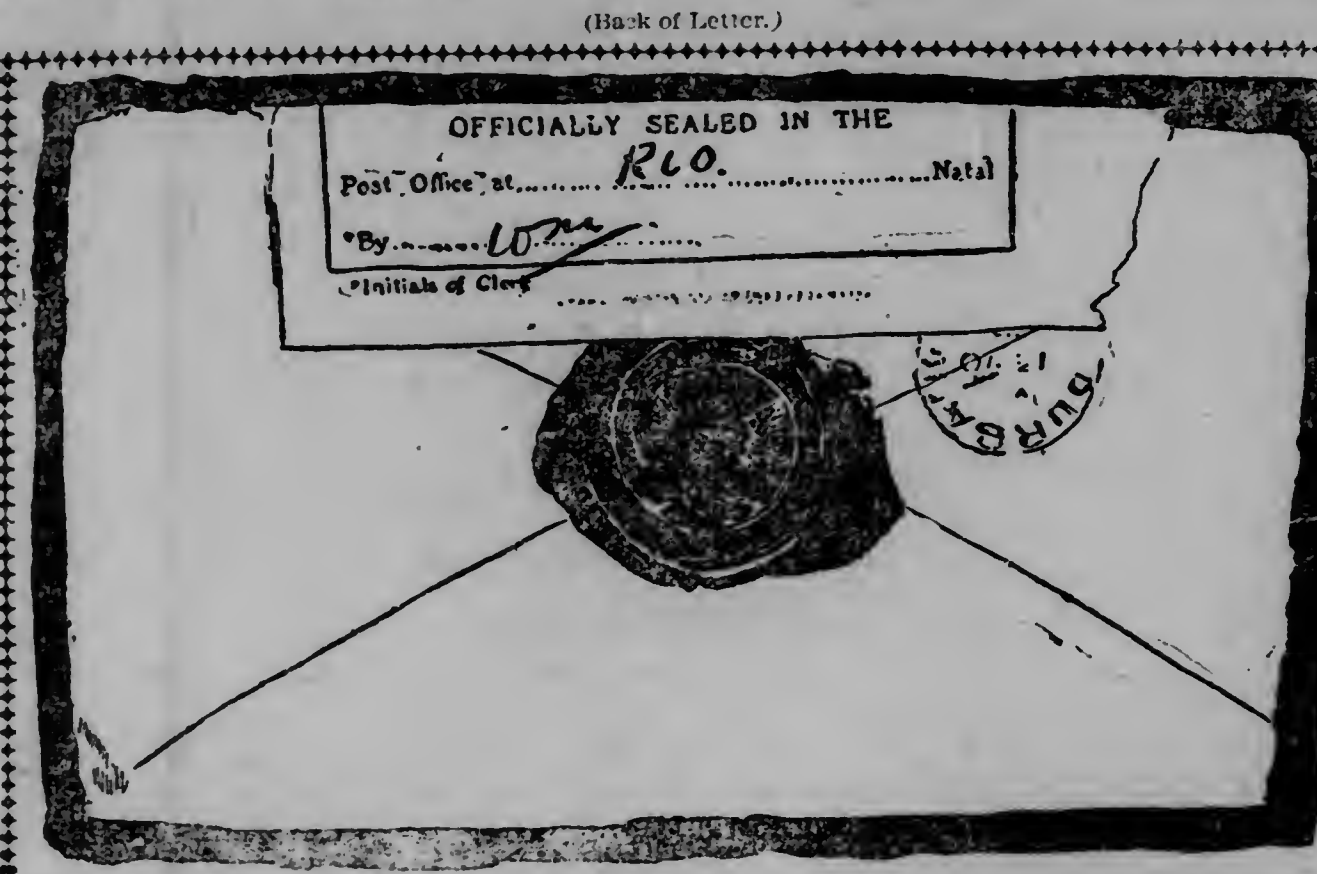

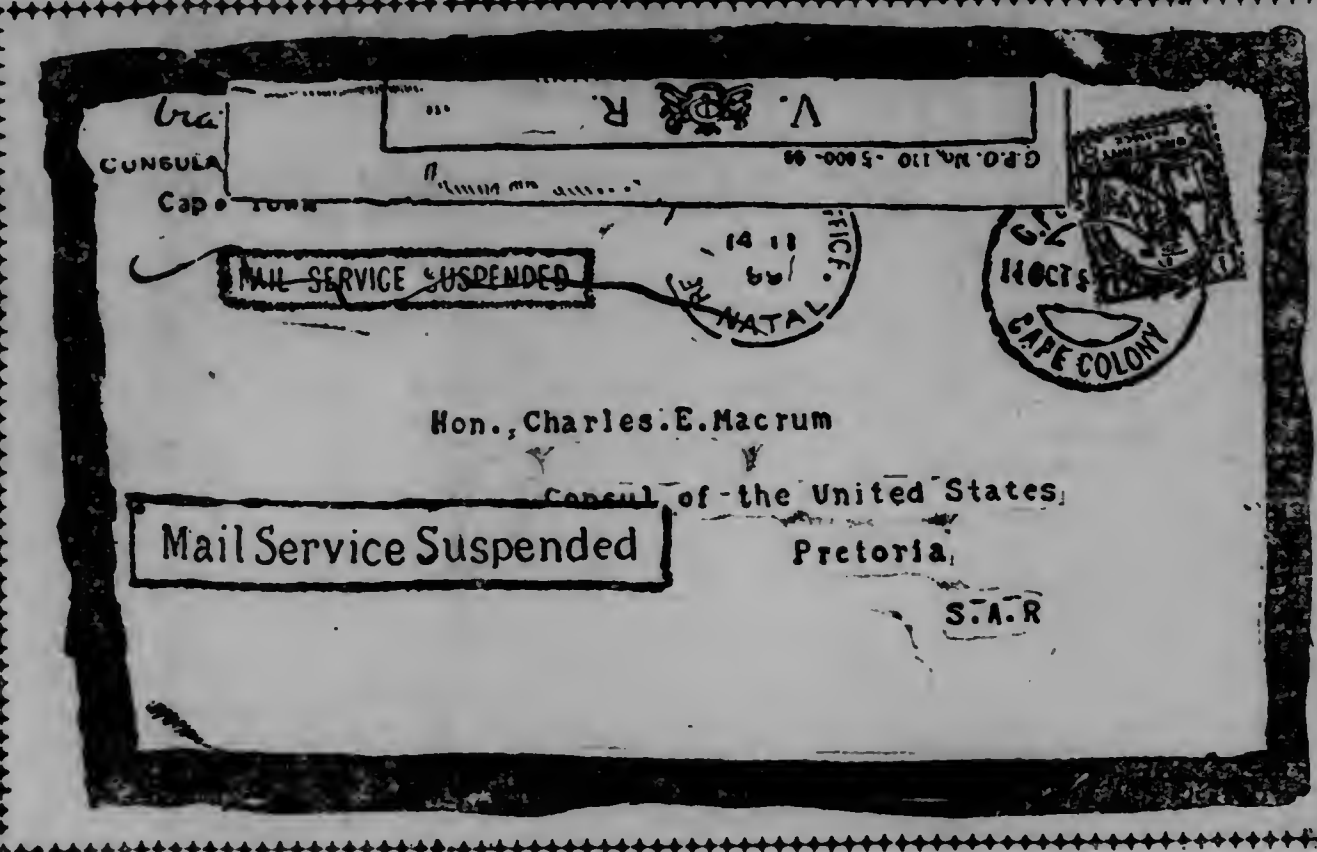

Boers Have Collected a Force East of Paardeberg.

London, March 3.—A dispatch from Oostfontein, six or eight miles east of Paardeberg, faces the reformer Boers, from 500 to 600 strong. This may be merely a corps of observation, ready to retreat on prepared positions. Doubtless it is receiving reinforcements from the late besiegers of Ladysmith and the Boers, however the forces may be Lord Roberts has ample troops to cope with them. A steady rain is falling on the west and the ground is improving. This will be a good thing, especially for the Boers.

Lord Roberts has surprised observers by the excellent condition of his transport and the first advance and he is likely to do so again, although military men here think he must wait for some days before going much further.

Macrum's Evidence of Anglo-American Secret Alliance.

(Faced Letter.)

Facsimile of an official letter from State Department to U. S. Consul at Pretoria, opened by British official, censored and resealed with British coat of arms.

BURNED A BABY. SOLD PERMITS.

An Anoka Woman Accuses Flannigan Says Wardner Deputies Sold Permits to Work in Mines.

Anoka, Minn., March 3.—Mrs. Melissa Blake and her alleged paramour, Dan Matson, were arrested today on the charge of murdering a babe to which Mrs. Blake gave birth Feb. 11. At the preliminary examination it was decided that the child was dead and they burned the remains to avoid further trouble. She will fight the charges, Mrs. Blake's husband has been in the far West for two years or more.

The admiralty board has telegraphed to the Cape expressing an expression of admiration and thanks on the part of lords of the admiralty to the marines and blue jackets engaged in the war to the "splendid manner in which they have upheld their branch of the service. The board added to its reputation for resourcefulness, courage and devotion."

REPAIRING THE RAILWAY.

The Road Is Restored From Kimberley to Riverport.

Cape Town, March 3.—The railroad is now repaired northward from Kimberley to Riverport. The engineers are putting the road rapidly.

The Boer prisoners captured at Paardeberg total 4669 men. About 3000 of them are on their way here. The presence of the volunteer army is enormous. Sir William MacCormack, president of the Royal College of Surgeons, who has been acting as volunteer surgeon with the volunteer army, is in South Africa, sails for England today.

TO PROTECT JOHNSTOWN.

Johnstown, Pa., March 3.—An attempt will soon be made to reforest a large portion of the Commonwealth waters to prevent damage from freshets or a possible repetition of the Johnstown flood of 1889, when \$10,000,000 in property was carried away, and nearly 5000 lives were lost. The region is peculiarly liable to freshets, owing to its geological character and the removal of its timber.

TO FIGHT COMBINE.

Pittsburgh, March 3.—A call for a convention of all the electrical contractors in the United States, to be held in this city on March 16, has been issued by the Pittsburgh Electrical Contractors' association. The object is to take some defensive action, consequent upon the formation of a combine of the electrical supply houses and the probable advancing of prices on material. An effort will be made to form an organization.

SIBBLEY DIVIDES PAY.

Franklin, Pa., March 3.—Shortly after the election, Hon. Joseph Sibley, as congressman from the Twenty-seventh district, announced that he would divide his salary for his two years' term between the five hospitals in his district. In fulfillment of this promise the officials of the projected hospital in this city have received a check for \$1000 from Congressman Sibley, and a check for the same amount was received by each of the hospitals at Oil City, Warren, Bradford and Kane. At the end of his term each hospital will have received \$2000. While Mr. Sibley represented the Erie-Crawford district, he took similar action with his salary, dividing it among the labor organizations of the district.

ONLY UNTIL APRIL.

Cleveland, March 3.—A leaked out yesterday that the grain rate from Chicago and Mississippi river points to New York, which was fixed at the meeting of the presidents in New York, is only a compromise, to hold good until April 1. A meeting of traffic managers has been called for Chicago on the 15th to agree upon a new basis which will be higher than the present one, but not in excess of 22 cents per 100 pounds.

LA NOMADIE AROUND. New York, March 3.—The French line steamer La Nomadie, which sailed today for Havre, was reported at 11:30 a. m. to be grounded on the coast of Godney channel opposite to where the Pennsylvania is aground. The steamer is endeavoring to float the two steamships.

BURNED A BABY. SOLD PERMITS.

An Anoka Woman Accuses Flannigan Says Wardner Deputies Sold Permits to Work in Mines.

Washington, March 3.—Edward Flannigan, of Mullan, Idaho, continued his testimony today before the house committee on military affairs concerning the Couer d'Alene riots. He said notices were posted early in July forbidding members of organized labor from going to the miners' ceremony on July 11 for their annual ceremony over the deceased miners. The order, the witness said, gave notice that women and other relatives of miners would be arrested if they assembled.

Chairman Hull brought out the statement that State Auditor Bartlett, Sinclair signed the notice, as representative of Governor Steunenberg, who, the witness said in answer to Mr. Hull, represented the Democratic and silver parties.

GOVERNMENT TO APPEAL.

Will Carry Up Case Involving Taxability of "Calls."

New York, March 3.—Assistant United States District Attorney A. M. King said today that, on instructions from Washington, an appeal will be taken to the United States court of appeals from the decision of Judge Lacombe rendered on Thursday last in the case of the United States vs. Almer McKimley and his wife. The case required to be affirmed to transactions in stocks known as "calls."

SPENDS A QUIET DAY.

President Receives Callers at Hotel and Goes Driving.

New York, March 3.—President McKinley arose at 8:30 this morning and, after breakfast, received callers at the Manhattan hotel, where he is stopping with his wife and a party during his stay here to attend the Ohio society dinner tonight. Those who breakfasted with the president and Mrs. McKinley were: Almer McKimley and his wife, Miss McKimley and Miss Barber, a niece of the president. Among those who called were Governor Nash of Ohio, ex-Secretary of the Interior Cornelius N. Bliss and Gen. Granville M. Dodge. Shortly before noon President McKinley went driving with his brother, Almer. They drove up Fifth avenue, presumably to go through the park.

ASCENDED THE FLUME.

Receiver Appointed For Fessenden, N. D., Fire Insurance Company.

Jamestown, N. D., March 3.—Judge Gaspell has appointed T. F. McCue, of Carrington, N. D., receiver for the Western Mutual Fire Insurance company, of Fessenden, N. D., on application of State Insurance Commissioner Harrison. The assets are \$15,000, with liabilities anywhere from \$22,000 to \$30,000.

The company did a hail insurance business, and its failure results from severe losses in Walsh county in 1898. Farmers are heavy losers and a rigid investigation will be asked.

COMES TO TIME.

Detroit, March 3.—George A. Vanderbeck, late owner of the Detroit club of the American Baseball league, appears likely to retain possession of the club, notwithstanding its recent sale to satisfy Mrs. Vanderbeck's decree for alimony. Vanderbeck has complied with an order of the circuit court requiring him to file a bond of \$8000 with sufficient sureties for payment of the alimony. Mr. Vanderbeck today wired his players notices of the outcome.

STORM-BOUND.

Malone, N. Y., March 3.—Northern New York is still in the grasp of the storm. People in outside districts find it impossible to buy their food. The body of a girl who died here last Monday still lies in the house. Milkmen can reach only a small portion of their customers.

LAKE LINE FORMED

Representatives of Large Vessel Interests Organize New Steamship Company.

LEOPOLD PRESIDENT

President Brown of the American Ship Building Company Is Interested.

Chicago, March 3.—The Daily News today says:

Details of the organization of the Manitowish Steamship company became public today and caused a stir among vesselmen, who see in the transaction a combination of big interests.

Stockholders of the company met yesterday and elected the following directors: W. L. Brown, N. F. Leopold, A. W. Goodrich, W. L. Babcock, Allan McIntyre.

W. L. Brown is president of the American Shipbuilding company, which owns all but two or three of the shipyards on the great lakes. N. F. Leopold is a former member of the Lake Michigan & Lake Superior Transportation company. W. L. Babcock is at the head of the Chicago Shipbuilding company, which is part of the American concern. Allan McIntyre is the venerable captain of the Manitowish.

Mr. Leopold is president of the new company. Mr. Babcock vice president, and H. W. Thorp general manager of the Goodrich company is secretary and treasurer.

The combination involves the exchange of various privileges among the interests concerned. The Manitowish was recently sold to the new company by the Lake Michigan & Lake Superior transportation company.

CLARK CASE ARGUMENTS.

Counsel Given Two Weeks to Prepare for Closing.

Washington, March 3.—The senate committee on elections today held a consultation with counsel on both sides in the Clark investigation, and decided to give them two weeks for the preparation of the argument to be made in the case. Argument will begin on the 20th instant.

Counsel were requested to prepare printed briefs, and also to present oral arguments, the latter to occupy six hours for each side. The memorialists are to have the opening and closing. Former Senator Edmunds and Mr. Birney will make the arguments for the memorialists, and former Senator Faulkner and Roger Foster will speak for Clark.

Mr. Faulkner stated that he was having a comparative statement prepared showing the evidence on all given points on parallel columns, contrasting the testimony for the prosecution and defense. He said that it would take a week to complete this work.

THE MACHINISTS' STRIKE.

The Unions Outside of Chicago Will Wait Awfully.

Chicago, March 3.—Until the strike of the union machinists in Chicago shall begin to show results one way or the other, it is probable that union machinists will not be ordered out in other cities. So it is probable that the strike in Chicago will be the last to be ordered, so far as possible, to that trade alone in Chicago.

President James O. Connell of the International Association of Machinists will go to Columbus, Ohio, the first of the week, to attend a conference of the strikers there today, stating that a conference had been arranged between the striking machinists and their employers, and expressed himself as confident that the strike in that city would be settled amicably in a short time.

The strike in Chicago is looked upon as a test of the strength of the union by the labor leaders and unions affiliated with the material trades council, which yesterday resolved to support the machinists to the end, will not be ordered out unless conditions demand it.

A meeting of the executive committee of the Machinists' union was held today to map out a plan of campaign and arrange for funds for carrying on the strike to a successful conclusion. A number of small firms not affiliated with the Manufacturers' association signed the union scale during the day, and the men were told to report for work. So far, however, there are no signs of yielding by the Manufacturers' association.

Trouble at the Deering Harvester works, which was expected to involve several hundred of the employees, has not so far materialized. According to the Deering officials, not over twenty machinists have quit work.

EXCITEMENT IN COTTON.

The Market Goes Kiting and Purchases Are Colossal.

New York, March 3.—Tremendous excitement prevailed on the cotton exchange today. Transactions were upon a colossal scale. The market advanced 16 1/2 points on the near positions, and 4 to 10 points on the new crop deliveries, following an unexpected advance of 6 1/2-6 3/4, 11 1/2-11 3/4 at Liverpool.

The English advance, by the published bulletin of a leading banking house this morning, was qualified as a crazy movement. This sentiment was more or less shared by the professional traders on change; but that cut no figure against the wild and enormous buying by the speculative public at large.

The English advance was, according to private cables, practically accounted for by a continental failure in cotton and partly by an enormous English demand for payment of the alimony. Mr. Vanderbeck today wired his players notices of the outcome.

STORM-BOUND. Malone, N. Y., March 3.—Northern New York is still in the grasp of the storm. People in outside districts find it impossible to buy their food. The body of a girl who died here last Monday still lies in the house. Milkmen can reach only a small portion of their customers.

NO HONORS TOO GREAT

Britons Think That Dukedoms Would About Fit the Successful Generals.

UN-BRITISH ANTICS

Scenes of Rejoicing Over Victories Eclipse Ebullitions of Impassioned France.

London, March 3.—(Copyrighted, 1900, by the Associated Press)—A duke for a hero, and a peerage for a victor, are the prizes already being offered to the heroes of the hour. It is only the marvelous wave of enthusiasm that swept over the country this week could find its prototype in material rewards. Lord Roberts and his fellow heroes of the hour would all be made dukes forthwith.

The change that has come over the spirit of Great Britain's dreams can only be appreciated by those who went through those long four months of unequalled gloominess and depression and what are now freely admitted to be defeats. The scenes accompanying this change equalled the wildest delight that ever gushed through the British Empire. To a certain extent, they were quite antithetical to the British race and put in the shade the demonstrations that occurred in the United States during the Spanish-American war. Yet it must be borne in mind that Great Britain had been sentimentally belittled so long that there was bound to be an outburst. Kimberley was relieved and securely a city was noticeable in this deeply popular United Kingdom. Lord Roberts, by excellent strategy, caught Gen. Cronje in a vice and annihilated him and the nation said well done with several degrees of less fervor than would have had made the same remark had England beaten Australia at cricket.

The barriers of British self-restraint and reserve were not yet broken down. Though hundreds went about their daily business apparently content but in their hearts were dying for a chance to cheer and shout with delight. It was still Napoleon's race of shopkeepers, placid and contentedly proper. Lady Smith was not a proper exhibit of the desire to publicly exhibit rejoicing which would no longer be denied. The English soldiers already been described in these dispatches.

The long casualty lists passed almost unnoticed. Who cared for the dead, except to sing their praise. The intoxication of victory, coming after months of reverse, pervaded the length and breadth of the land. The cry of Great Britain's military weakness, the rottenness of her army organization and the menacing acts of other powers were still and the tears of those who had become widows or fatherless because of this great thing. The much more intense to the triumphant war god.

Since the strife began, almost every line said: "There is no doubt about the result. We are bound to win." But it was not until this week that a large percentage of the people could actually convince themselves of the certainty of the ultimate victory. Small wonder, then, that the war is the sole topic of the week. The demonstrations quite outdid those of the people of Paris. It takes an effort of imagination to picture the ordinary middle-class English girl, marching bareheaded through the streets, singing and shouting and waving flags, but this is what occurred. About 100,000 men and women, students of the Kensington art schools, the girls' battalions wearing their marching caps and in overall, marched, singing and cheering, to the Albert memorial in honor of the late Lord Roberts.

Mrs. Chamberlain smilingly acknowledged the ovation and the official secretary's son made a speech.

At Col. Robert's house they sang "For He is a Joyful God." and passing the French embassy, to indicate their feelings, they sang an enthusiastic hymn. It was a well-attended procession for staid old England.

The scenes at the battle of Waterloo, as described by the writers of that day, were as nothing compared with the scenes witnessed this week.

The pope's attitude towards Great Britain and the British Catholic attitude towards the war were interestingly illustrated at a meeting of the British Catholic union. The president, the duke of Norfolk, read some correspondence exchanged between himself and the duke of Norfolk, who had requested the duke of Norfolk to intercede with the pope in relation to the war. The duke of Norfolk, receiving a financial subsidy from him, the duke of Norfolk wrote: "To us it seems very curious that any opportunity should be given to any one to persuade the British people that the holy see regards them with hostility or dislike. I cannot do so, but an impression of this sort is creeping into the public mind. When it is remembered that Catholics are in the minority in Great Britain, it will, we think, be admitted that in the freedom of our religion, in the great question of education and in matters of religious ministrations to soldiers and sailors, we need not fear comparison with other countries in which Catholics form the great majority."

To which Cardinal Rampolla cordially replied that the Observator Romanus only printed one column which was official, and this was devoted to religious news, editing his reform to avoid responsibility for any political views it might express, and declaring that the holy father always cherishes for England that lively special interest which he has already found many reasons of the playing, and that the year of the God of peace he desires nothing more earnestly than a cessation of the actual state of things which costs the English nation so many victims.

Lord Roberts, at a meeting of the union, declared that in religious matters the British Catholics stand in the front rank, but when it came to civil government

ONE SHORT PUFF CLEARS THE HAZE. Does your head ache? Have you pains over your eyes? Is there a constant drip in the throat? Is the breath offensive. These are certain symptoms of catarrh. The Agent's Catarrhal Powder will cure most stubborn cases in a remarkably short time. If you've had catarrh a week it's a sure cure. If it's of fifty years' standing it's just as effective. Sold by Mac Wirth, 13 West Superior street, and Smith & Smith.—11.

"Every married man must ask his wife's permission to make a success." That was a saying of a wise old clergyman who knew that marriage was a partnership in the broadest sense, and that there can be no success in any partnership in which the partners do not contribute equally to make success possible. For this, if for no other reason, every man who is trying to climb the ladder of success should be interested in his wife's health. A healthy woman is always helpful. A tired, nervous woman, depleted in strength and depressed in mind, can contribute neither mentally nor physically to a husband's success.

The remarkable remedy, Dr. Pierce's Favorite Prescription, so strengthens the organs peculiarly feminine, dries up debilitating humors, drains, heals ulcerations and inflammations, and cures female trouble, that the causes of ill-health are thus entirely removed, and the healthy, happy wife becomes a genuine help-mate to the husband.

"I was sick for twelve years, and for two years I had to stop work altogether," writes Mrs. McRobie, of Oakland, Cal., who writes: "I was treated by Dr. Pierce's Favorite Prescription, and I am now a healthy woman, and I am able to do my work."

Sick women can consult Dr. R. V. Pierce by letter, addressed to Buffalo, N. Y., also, in private, statements held in sacred confidence, and all answers are mailed, sealed in plain envelopes, without advertising or other printed matter.

It is a good thing to keep Dr. Pierce's Pleasant Pellets in the house. One Pellet is a laxative, two a cathartic dose.

They took their places side by side with their fellow-countrymen. The Times, commenting upon the patriotism of the many titled persons and others who were present at the meeting, said:

"It is a pity that Cardinal Rampolla did not speak out plainer, in view of the fact that the subsidized Observator Romanus all the world over is supposed to represent the pope's personal opinion."

R. W. Pringle, of Chicago, who came over this week representing the National Republican league was issued today.

"In accordance with a resolution of the executive committee, the twenty-first convention of the National Republican league is hereby called to meet in the city of St. Paul, Tuesday, July 15, 1900. Each delegate shall be entitled to one vote. Alternate delegates will be allowed to seats in the convention hall with their respective delegations."

The president and secretary of state and territorial leagues are the proper officials to sign and certify to the credentials of the delegates from their respective leagues. All delegates should be provided with such credentials.

OUTLOOK IS STORMY

Prospects For Settling the Colombian Squabble Seems Poorer Than Ever.

ARE HACKING AWAY A PLEDGE OF AMITY

Government Forces and Insurgents Have a Fierce Battle at Pijao.

New York, March 3.—A dispatch to the Tribune from La Guayra, Venezuela, says:

It is believed that the prospects for a settlement of the revolution in Colombia are poorer now than they have been for some time. One of the most recent reports is that President San Clemente and his cabinet have abandoned Bogota and Anapolima and settled in Teusa, north of the capital. This, however, is unconfirmed, and there are other reports from equally trustworthy sources denying that Gen. Uribe with his rebel army is near Bogota.

A detachment of government troops under Gen. Palencia had a fierce engagement with a band of insurgents recently at a place called Pijao, about fifteen miles from Barranquilla. Both sides claim the victory. It is said the insurgents lost over 200 killed and wounded and 150 were taken prisoners. The government lost at least 100 men.

CALL ISSUED.

Official Call For the Convention of the National Republican League.

Chicago, March 3.—The following official call for the meeting of the National Republican league was issued today:

"In accordance with a resolution of the executive committee, the twenty-first convention of the National Republican league is hereby called to meet in the city of St. Paul, Tuesday, July 15, 1900. Each delegate shall be entitled to one vote. Alternate delegates will be allowed to seats in the convention hall with their respective delegations."

PRESENTED TO LOUBET

First of the Lafayette Dollars Delivered to the French President.

ARE HACKING AWAY A PLEDGE OF AMITY

From President McKinley and the People of the United States.

Paris, March 3.—Robert J. Thompson, secretary of the Lafayette monument commission, as special messenger of the United States representing President McKinley and in his name, presented to President Loubet, this morning, the first of the Lafayette dollars, which was enclosed in a casket costing \$1000.

The presentation took place at the Elisee palace. Mr. Thompson, accompanied by the United States ambassador, Gen. Horace Porter, drove from the embassy in the police car, the ambassador's carriage. On arriving at the Elisee, at 11:45 a. m., they were received by Mollat, sub-director of the protocol, and Capt. Haguet, of the French navy, who was the officer on duty. The Americans were conducted to the president's cabinet (study), where M. Loubet was awaiting them. By his side was M. Delcasse, the minister of foreign affairs, and Gen. Billaud, the chief of the president's military cabinet. Several members of the president's military household were also present.

Gen. Porter introduced Mr. Thompson to President Loubet and the presentation of the dollar was then made by Mr. Thompson in a few appropriate remarks.

"Mr. President—in the name and on behalf of his excellency, the president of the United States, I have the distinguished honor of extending to you the high representative of the people of France, salutations and greetings of friendship."

"On Oct. 19, 1898, the anniversary of the victory of Yorktown of the French republic in the cause of the cause of liberty, the American school youths were invited by the president and governors of the several states of the United States to contribute their pennies toward the erection of the monument in Paris to a son of France, our great and venerated ally, Gen. Lafayette."

"The response of the children was universal and the movement a splendid success. In further aid of the work an issue of 5000 souvenir silver dollars was appropriated and ordered struck by Congress. Of these 5000 Lafayette dollars, the first to issue from the mint was especially reserved for your excellency, Mr. President, the distinguished honor, Mr. President, I have the honor to present to you this coin, a simple and sympathetic token in his name and for the people of the United States."

"I voice the sentiments of my countrymen when I express the hope that this memorial dollar, stamped with the likeness of Washington and Lafayette, may remain always, as it is today, an emblem of the friendship and unity of the two great republics of the world."

It really the president said he was deeply touched by the kind thought of America's president and people, and that he would be proud to have it stamped with the name of the president of the United States, which the coin had been presented to him by Mr. Thompson.

President Loubet then turned to the president of the United States, and said: "I have the honor to receive from you the first of the Lafayette dollars, which the people of the United States have contributed to the monument in Paris to a son of France, our great and venerated ally, Gen. Lafayette."

President Loubet concluded with saying: "I was especially agreeable to him that the mission was entrusted to Mr. Thompson, who has the honor to be the first of the Lafayette dollars, which the people of the United States have contributed to the monument in Paris to a son of France, our great and venerated ally, Gen. Lafayette."

The French president then invited Gen. Porter and Mr. Thompson to stay to lunch, at which Madame Loubet and M. Delcasse were present.

IN MICHIGAN.

February Production of Atlantic and Wolverine—South Shore Changes Trains.

Houghton—The February production of the Atlantic mines was 239 tons 515 pounds. The amount was lowered by four working days in the month and the additional fact that the heavy storms interfered greatly with getting a full supply of rock to the mill and at times rendered it impossible.

The February production of the Wolverine was 232 tons 50 pounds. A new timetable will be issued by the Duluth, South Shore & Atlantic March 4, trains 15 and 2—the two night trains—being discontinued and a new local train put on which will leave Houghton at 4:25 a. m., for Calumet and returning will reach Houghton at 9:05 p. m. As under the old plan, before the night trains were put on, passengers leaving for Saxon or points west of there will be taken from Nescotia to Marquette and without charge to save them the long wait which would be necessary at Nescotia, and the same is true of passengers coming from Saxon and western points to the copper country. The general passenger service of the South Shore announces that it has to replace the night trains some time in May.

MARCH, APRIL, MAY

During these spring months, everyone is threatened with many complaints and diseases. These months allure to exposure, overwork and risk of health. Prudent people take advantage of the marvelous invigorating power of

Paine's Celery Compound

hammer. During the fiscal year ending June 30, 1899, 21,245 tons of rock were mined at the Wolverine mine. The result was 5,507,740 pounds of mineral and 4,500,375 pounds of refined copper. The product of the fiscal year of 1897-98 was 5,470,927 pounds of refined copper and of the previous year 2,257,488 pounds.

At the Osceola, No. 4 shaft is now sinking below the thirteenth level. No. 3 they are now drifting at the fourth level south and the fifteenth and sixteenth levels north and south. No. 4 shaft drifts are being driven south at the twelfth and thirteenth levels.

Some of the drifts are looking well and some quite otherwise, as is the case with all any drifts. Stopping is being done in places from No. 3 and No. 4 shafts.

The Rand drill company, of New York, has been awarded a contract with the Quincy Mining company for a second 60-inch air compressor, similar in all respects to the compressor ordered by the Quincy from the same concern last fall, and for which the foundations are now being completed, except that the new machine will be built "left-handed."

monies upon Red river, Lake Traverse and Big Stone lake.

Forman—The Wilcox boys, Tom, Robert, Hiram and Joe, who went out to Idaho last fall, have struck it rich. A telegram has been received here saying they have a mine valued at several millions.

Fargo—At the intercollegiate oratorical contest last night, between two representatives from the state cultural college state university, Fargo college and the Methodist university, at Wheaton, Minn., the former placed first for North Dakota in the interstate contest to occur in South Dakota in May. E. D. Stewart, of the North Dakota agricultural college, won first place, with the subject, "A Citizen of Democracy." The second place was awarded to J. H. Douglas, of the state university. His subject was "The League Conference."

SOUTH DAKOTA. Chamberlain—Rudolph Steiner, a single man, 23 years old, living south of this city, committed suicide by shooting himself through the chest with a double-barreled shotgun. He was lying on his back, and several brothers, and while they were temporarily absent from home he locked himself in a bedroom and committed the rash act. He left no word or statement. The position of the body and gun indicates that he put the muzzle of the gun against his chest, reared over and pulled the trigger. The charge made a hole just the size of the gun-barrel and lodged in his back, breaking several of the vertebrae and ribs. Death must have been instantaneous.

KAMSTRONG ACQUITTED. Memphis, Tenn., March 3.—The jury in the case of Harry L. Armstrong, cashier of the defunct Continental National bank, who was charged with making illegal entries in his reports to the government, has returned a verdict of not guilty.

Growing Time Children must have just the right kind of food if they are to become strong men and women. A deficiency of fat makes children thin and white, puny and nervous, and greatly retards full growth and development. They need

Scott's Emulsion It supplies just what all delicate and growing children require.

SCOTT & BOWNE, Chemists, New York.

Apply at once at No. 2 First avenue west, in Hunter block.

CHAN SMITH, Sec'y.

Costly Fad By the Fair.

Panne Velvet Used With Success In the Negligee Lines—A Gown Designed By the Famous Montaille.

The Fancy For Dainty Underwear Continues. Handsome Buckles and Buttons In Fashion.

Paris, Feb. 22.—(Special to The Herald.)—The most exquisite, and by reason of its extreme daintiness, the most costly of modern weaves, is indisputably that long-napped, shining variety of the velvet family called "Panne." Not only does it dominate the millinery field where its effectiveness has been unsurpassed, but it is fashioned by the dress-makers into rich trimmings, independent bodices, or whole costumes. Its latest success lies in the negligee lines—a costly fad—adopted only by the most discerning searchers for novelties. So rich a material requires simplicity of form and carefully chosen garniture to set it off. The heavier varieties of laces are particularly adapted for combinations with panne velvet, as is illustrated by the charming model depicted on this page. It represents a negligee from the famous

Illustrated by Felix Fournery.

Negligee Costume designed by Montaille of Paris

Montaille, and its success depends upon its elegance of cut and the rich material which composes it, and not a little upon the stylish figure which it is intended to envelop. The gown is cut a la princesse, closely adjusted and finishing with a loose Watteau fold which falls in a train below. The panne is a pale blue green in color, with wreaths of shaded darker green laurel leaves. The lining is of soft satin of the same shade. The gown is guileless of any trimmings on the skirt or train, the only embellishment consisting of a yoke of ocher Lurex lace which extends into a deep pointed vest below the waist line in front. Vandyke points of the same lace encircle the yoke, which is lined with cream-colored satin. The collar of the same lace is stiffened at the back with small whalebones and is also surmounted by a fall of smaller Lurex lace. The sleeves fit the arm snugly, and end at the wrists with a dounce of Lurex lace. The clinging train in front is effected by concealed hooks and eyes, but is marked by tiny rosettes of pale green panne, which follow the line in two rows. Another negligee by Franck is com-

posed of cream-colored panne velvet. The skirt, though tight fitting, shows that studied carelessness in fall which distinguishes it from the more rigid cut of door costumes. Its soft folds are interrupted by wide insertings of yellow guipure which extend in bias lines from the back toward the front, where they form deep V-shaped points. The hem and short train of the skirt are overlaid by a fitted border of the same lace, under which, as under the insertings, the velvet has been cut away to show a foundation of yellow satin. The bodice of cream-colored panne blouses considerably in front, but is stretched tightly and without seams over its yellow satin foundation at the back. A row of the same insertings as on the skirt encircles the bodice in a bias line on each side, which meets in a point in front. The yoke, with its stock collar of lace is encircled by a narrow dounce of plated cream-colored mousseline de sole, and the panne sleeves with their

lar which, by its form, leaves a V-shaped opening at the throat. The sleeves of ivory panne are rather loose and have wide turned-back cuffs of lace-covered mauve liberty silk, edged with a narrow dounce of crimped liberty silk. Dainty neckwear is one of the perquisites of present fashion, and the cravat illustrated today is a fair example of these becoming attributes. It is well worthy of imitation, and its construction is not difficult. Pleated white mousseline de sole forms the stock which closes at the back and is there held in place by two satin-covered whalebones. The same mousseline de sole is tied in front in a bow, the ends of which are knotted and embellished with a rich incrustation of lace. The growing fancy for handsome buckles and buttons to their best efforts. Rich gold work is particularly favored, and a lovely agraffe of variously shaded and chased gold by Henri a la Pensee, is in its exquisite workmanship, a reminder of the Renaissance.

LATEST FADS OF WOMANKIND.

The Newest Fancies of the Up-to-Date Maiden.

New York, Feb. 23.—"Fads are as contagious as measles," sighed Dorothy, who strolled in the other afternoon for a cup of chocolate and an almond bar. "No sooner does one originate than the idea is copied, recopied, etc., and a fad is the result and an epidemic imminent." Apropos of these discomfiting remarks, that sister of mine made me familiar with several of the latest fads of fashion folk which to me were tremendously interesting. Her especial grievance concerned a party

Novel Directoire hat of green straw, trimmed with knots of green gauze caught with small bouquets of violets. Model by Marescot.

Novel flower fad extending over tremendous area. They are applied to scarves, sashes, diaphanous dresses and stockings for theater wear, along with innumerable evening gowns beautified by roses, forget-me-nots, snowdrops and narcissus blooms. Dorothy's dress is a dream. Under the mousseline, which is ivory white, there is a violet tulle, which gives a faint purplish tinge well according with the flowers. On the bodice both green and violet tulle appear, with a great rope of the dainty blossoms fastened to the left side, hanging free skirt. Triple bands of violets simulate sleeves, and she wears a bracelet of them on her right wrist, from which is suspended a tiny empire fan composed entirely of violets. This is in lieu of the conventional bouquet. The ensemble is very fetching. In it may be observed several suggestions which might be utilized by some of us who do not indulge in great extravaganzas. For instance, the floral bracelet might accompany a floral stock and a simple gown made more pretentious by the addition of a mousseline sash fringed with flowers, while the fan garniture is easily accomplished and may be used with impunity on all occasions. One of white satin covered in pink roses

Indoor toilette of white crepon. Bolero and collar of mauve panne velvet embroidered with silver. Model by Mme. Guillot.

would be dainty, and one with a border of large white, yellow or black chrysanthemums seemed quite on the edge of a fan with substantial sticks simply gorgeous. The flower craze has extended to stock, and lengths of velvet ribbon submitted to this treatment are a prevailing fancy of the season. It was the white muslin frock of the June days wonderfully transformed by wearing a silken sash with ends covered in flowers.

Women are wearing nets again—not on the street, nor yet indoors where they may be seen, instead of braiding the tresses at night the hair is softly curled and a heavy meshed net holds it in place. This is but an indication of the bold hygiene has taken upon the feminine contingent, and that its influence to the contrary, proper ventilation and protection from snarls are afforded by the net, and a well-groomed woman will not be slow to adopt its use. Some mothers, realizing the benefits to be derived by net wearing, are putting them on their little ones' heads as well. Dorothy tells me in this connection that nightcaps, too, are having a vogue, some preferring them to the net. As a compromise she has knitted herself one of coarse white silk, rim a ribbon through and framed her face in a veil of wash lace. You can't imagine a more picturesque affair, and, as she

Young lady's costume by Felix. Skirt and blouse of cream India mull, chemise and sleeves of lace, collar hands, belt and cuffs of rose-colored velvet richly embroidered with silver and black chenille and tinsel.

wears low-necked nightdresses, with short puff sleeves, the altogether is as delicious a bit of femininity as ever came my way. Among the old fashions revived none is more pleasing than that of serving luncheon on the polished table tops with the use of mats. Mahogany is, of course, the most beautiful for the purpose. Much rivalry exists among the fair sex in the making of mats. Embroidered ones are possible to almost any one, but the desire is for originality and this fact rather taxes one's ingenuity. None is prettier than the diamond shape squares of fine linen, hemstitched and done in patterns of convenient drawn work, particularly when mounted upon silk linings which pertain to the color scheme of the luncheon. A daffodil tea would require yellow, and the laurel luncheon deep green. By the way a clever girl with a small income gave what she was pleased to term a "laurel luncheon" a few weeks ago, and now at one out of every half dozen places I go to the "L. L." is the order of the day. My friend was the proud possessor, fortunately, of a magnificent old mahogany table, which was prettily sprinkled with leaf-shaped mats of sheer linen, with a glimmer of even white paper. A gorgeous green glass bowl in the center was filled with branches of mountain laurel, and that dishes filled

Promenade costume of pastel blue velvet, with a narrow pinkish red ribbon collar and yoke of yellow guipure. Model by Mme. Montaille.

with tender sprigs were placed here and there about the room, and when the finger bowls were brought into requisition a laurel twig accompanied, and each guest followed the example of her hostess by tucking the sprig into her bosom.

"Theater books" are to be mentioned among the fads, and according to a program of recent date, Semberich, the open singer, is their sponsor. It tells of the fact that "Marcella Semberich has a book in which every performance at which she sings is recorded. Many women keep books in which they record every performance they witness. There was a time when just an old book, a ledger or a scrap book, was thought quite good enough for the preservation of programs of operas, concert and the theater, but that is no longer the case. A special theater book is now considered a necessary possession by every theater-going woman.

"The theater book may be a thing of beauty, and if carefully and properly kept, should prove a joy forever, and in years to come valuable in a family. Each left hand page has spaces which, when filled in, tell to what place of amusement the owners went on a certain date, with whom she went, what the performance was, who were the leading performers, and then there is room for her to criticize the play and

Monocle is set in a narrow gold rim and has a fine 2-inch handle.

Whether or not the monocle will be adopted here remains to be seen. In Paris every fashionable woman is wearing one, using it upon all occasions and as the exhibition will take a great many Americans there in the summer it is not improbable that by next winter the monocle habit will have struck New York. DAISY MAY.

A Flendish Attack. An attack was lately made on C. P. Collier, of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he took Dr. Williams' Pink Pills. He now feels like a new man. This marvelous medicine cures backache and kidney troubles, purifies the blood and builds up your health. Only 50 cents at W. A. Abbott's drug store.

Young lady's costume by Felix. Skirt and blouse of cream India mull, chemise and sleeves of lace, collar hands, belt and cuffs of rose-colored velvet richly embroidered with silver and black chenille and tinsel.

players. Space is also provided in which the comments of the professional critics may be inserted. The opposite page is left blank, and there the program and pictures of the stars are pasted in. Some of the books inside and out are elaborately designed in white and gold. "Nothing has given me more pleasure than my theater book," said a young woman who has displayed bold humor and originality in keeping hers. "I've always kept my program, of course, every right-minded woman does. But, as I was about to say, I never kept my programs carefully until I fell heir to this book. I just put them into a scrap book higgledy piggledy, without criticism or comment, and as a result, when I came to look over them on a rainy day I found frequently that I could not recall this, that or the other point about a performance. The theater book bolsters

Kidney Troubles of Women

A Few Letters to Mrs. Pinkham from Women She has Helped

From Mrs. Bertha Oster, Second and Clayton Sts., Chester, Pa.

"DEAR MRS. PINKHAM:—I have taken five bottles of Lydia E. Pinkham's Vegetable Compound and cannot praise it enough. I had headache, leucorrhoea, falling of the womb and kidney trouble. I also had a pain when standing or walking, and sometimes there seemed to be balls of fire in front of me so that I could not see for about twenty minutes. Felt tired in the morning when I got up. Had fainting spells, was down-hearted and would cry. I am very thankful to you for what your Vegetable Compound has done for me."

From Mrs. Caroline Samuel, 14 Hammond St., Roxbury, Mass.

"DEAR MRS. PINKHAM:—I write you a few lines to let you know how much good your Vegetable Compound has done me. It should be in every household. I suffered for years with very severe sick headaches and kidney troubles of long standing. Your medicine is my friend of friends. It is worth a dollar a drop."

From Mrs. Mary A. Hiple, North Manchester, Ind. "DEAR MRS. PINKHAM:—I cannot find language to express the terrible suffering I have had to endure. I had female trouble, also liver, stomach, kidney and bladder trouble. Was obliged to pass urine every few minutes, and it would scald me so that I could scarcely sit, stand, or lie down. I tried several doctors, and also several patent medicines, and had despaired of ever getting well. At last I concluded to try Lydia E. Pinkham's Vegetable Compound, and now, thanks to your medicine, I am a well woman. I cannot praise your medicine too highly, for I know it will do all and even more than it is recommended to do."

General Weakness of System

"DEAR MRS. PINKHAM:—I have you to thank for my health and strength. I have taken your medicine for two years. Before I began its use I was so weak that after I had worked an hour in the morning I was obliged to lie down. I had fearful headaches, could not sleep, had palpitation of the heart, was always tired and suffered in many other ways. Now I am perfectly well and much stronger than I was ten years ago. I am fifty-three years old, and the mother of ten children. I never feel tired since taking your Vegetable Compound."—MRS. IMPERIAL, 509 Jefferson Place, Union Hill, N. J.

Such letters as these prove that the medicine which overcomes the serious ills of women is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

up the memory wonderfully. The chateleine bracelet is the newest edition of the chateleine craze. From a gold link bracelet are suspended the various belongings of the ordinary chateleine, with a monochrome added. The new ones are of gold or gun metal. The chains are five inches long. A tiny button box, a mirror and a link purse are suspended from three, and from the fourth is a monochrome. The chateleine

Wine of Cardui for Working Women.

Trinchera, Colo., Dec. 15, 1898.

I wrote you last summer and you advised me to take Wine of Cardui and Black-Draught. I have taken three bottles of the Wine, and four packages of Black-Draught, and I am glad to let you know that I am better ever since I took the first nine doses. When I first began taking your medicine I was in bed, and I tried several doctors and they didn't do me any good, but now I can do all my work, and don't get tired. I think I have had all the troubles that could afflict a poor woman; my back hurt, as did my head and legs, and I had a sick stomach every day for a long time. Now I can eat anything and it does not hurt me and I don't get tired. I think this is the best medicine that was ever discovered.

Mrs. CORA ROBINSON.

It Is Sold by All Druggists at \$1.00 a Bottle.

Of Duluth's neighbors.

TOWER TOPICS.

Tower, March 2.—(Special to The Herald.)—A number of the members of the Two Harbors Y. M. C. A. accompanied by a number of the members of the Duluth Y. M. C. A. were in the city last week, returning home on Wednesday. The party consisted of Messrs. J. S. Snyder, Misses Jennie Forester, Edith Burt, Edith L. Butler, Sophia Peterson, Edith Munnell and Messrs. C. H. Peterson, James S. Smith, Charles Peterson, H. A. Smith, Albert Thomas, C. A. Owen and M. E. Quinn.

Miss Riche North, of Virginia, who has been visiting Miss Styles for the past week, returned home Monday morning. Mrs. D. Kennedy left Wednesday for an extended visit with friends at Chicago.

Mrs. John Papp left Thursday for a week's visit with friends in Duluth.

A. G. Kingston returned home Monday evening from Wisconsin, where he had been attending a meeting of the State Retail Grocers' association.

Miss Julia Mahoney returned to Duluth Monday morning after a two weeks' visit with her parents in Duluth.

W. P. Chalm, chief clerk at the Elba Mining company, came in from McKinley this evening and spent Sunday with his parents.

Attorney W. G. Bonham was in Duluth Wednesday on business.

Mrs. C. H. Peterson, who is in Duluth Wednesday on official business.

Miss Anna Joffe returned to Duluth Monday after visiting relatives several days.

The epidemic of diphtheria, which looked very serious for a while in this city, over there being but three cases which resulted in one death and several others in public places, has been almost entirely eradicated.

Mrs. Hicks and Mrs. Morton left Wednesday for Duluth, where they will continue their musical drill experiments for the Duluth company.

Charles Lowman, chief clerk of the Minnesota Iron company at Soudan, was in the city Tuesday.

Arthur Thayer and Edith Burgess drove a team of horses to Elly last Sunday for a day's ride.

James Lecky came down from his home at the head of the lake Tuesday to purchase supplies.

D. L. Wiseman and M. C. Woodard came down from Elly last Sunday for a day's ride.

Mr. L. L. Lankford left this week purchased one-half interest in D. Graham in the Duluth hotel.

Mr. Lankford is an old hotel keeper and understands the business and will not doubt do well.

C. Winchester returned Wednesday evening from his few days' business in Duluth.

Mr. L. L. Lankford left this week purchased one-half interest in D. Graham in the Duluth hotel.

Mr. Lankford is an old hotel keeper and understands the business and will not doubt do well.

C. Winchester returned Wednesday evening from his few days' business in Duluth.

Mr. L. L. Lankford left this week purchased one-half interest in D. Graham in the Duluth hotel.

Mr. Lankford is an old hotel keeper and understands the business and will not doubt do well.

C. Winchester returned Wednesday evening from his few days' business in Duluth.

Mr. L. L. Lankford left this week purchased one-half interest in D. Graham in the Duluth hotel.

Mr. Lankford is an old hotel keeper and understands the business and will not doubt do well.

M. J. Segal, of the California, was visiting friends and relatives in Duluth this week.

William Chase, state assessor of logs, who has been employed at Allen's mill this winter, left Monday morning for his home at Minneapolis.

William Jackson returned Saturday evening from his two weeks' trip to Fort Franklin.

Miss Reed returned Saturday evening from her week's visit with friends at Fairbault.

W. and Mrs. Green returned Monday morning from Elly, where they had business before the municipal court.

Edward Blatz left Tuesday morning for Koochichewi, after a week's business in the city.

Mr. and Mrs. P. H. Foster returned Saturday morning from their business trip to Koochichewi, after a week's business in the city.

S. A. and E. A. returned from their business trip to Koochichewi, after a week's business in the city.

Miss and Mrs. A. C. Potter returned Tuesday on their way to lower Michigan.

The Tower Lumber company is pushing the work of its new saw mill, which has been built at Allen's mill this winter, leaving finished. It has a large crew of men at work on the building which it expects to have finished by April, when it will commence its season's cut.

John J. Stone, of Duluth, was in the city several days this week.

Mr. and Mrs. David W. Owen, accompanied by their three children, returned to Duluth Monday morning after a few days' visit among their many friends.

Miss Grover returned Wednesday evening from her short visit in Two Harbors.

Miss L. L. Lankford returned Wednesday evening from his few days' business in Duluth.

E. C. Everett and family returned Saturday evening from Duluth, where they had been visiting friends.

A very pretty miniature dance was given last Thursday evening at the Broun hall at Soudan. Some very pretty costumes were displayed. Professor J. J. Jones' orchestra furnished the music.

Miss Annie Mahoney returned Saturday evening from her extended visit among friends in Duluth.

Mrs. A. Everett returned Saturday evening from her few days' visit at Duluth.

Peter Johnson, who has been away for several weeks, left the first of the week for Duluth to minister treatment at St. Mary's hospital.

L. L. Lankford was doing business in Elly Wednesday.

J. J. Walsh, the rabbit king, spent several days in Duluth this week.

George Hunter, manager of the Iron Range Ironing association, returned Wednesday evening from his business trip to the Mesabi range.

John Haddock left Monday for a few days' business in Duluth.

Alvin Cameron has accepted the position

of the Duluth Ironing association.

A CITIZEN'S STORY.

TOLD BY A DULUTH CITIZEN FOR THE BENEFIT OF DULUTH PEOPLE.

The greatest importance attached to the following is that it concerns a Duluth citizen. It would lose three-quarters of its interest if it involved some resident of Kalamazoo, Mich., or Woonsocket, R. I. Like all the testimony which has appeared here, and like all which will follow about the old Quaker remedy, Doan's Kidney Pills, it comes from residents, fellow-citizens and neighbors. No other remedy can show such a record of home cures. Read this case:

Mrs. C. H. Bradley, of 109 First street, says: "For two or three years my kidneys bothered me a good deal, and the usual home remedies gave me but very temporary relief. I had a heavy aching pain across the small of my back, and it was painful for me to stoop. I could not rest comfortably at night and in the morning rose tired and unrefreshed. I was also bothered a great deal with nervousness. The kidney secretions were irregular and unnatural and deposited a sediment. I went to the Duluth Drug company's store and procured a box of Doan's Kidney Pills. I had taken only a few doses when I felt better and by the time I finished the prescribed course of treatment it was unnecessary to continue taking the remedy."

For sale by all dealers. Price, 50 cents. Foster-McIlhanna company, Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

gine house. He expects to have it finished in a short time.

The telephone poles are already in town and are going to be put up as soon as the weather improves.

Duluth People Testify to the Wonderful Cures Performed by Dr. Doran's Latest Treatment in Diseases of the Eye, Ear, Nose, Throat and Lungs and Special Diseases.

Weak and Inflamed Eyes Cured.

"I had been troubled with my eyes for more than ten years when I began treating with Dr. Doran. My eyes would water, smart and were always red like raw beef. I was to Chicago, St. Paul and Minneapolis for medical aid, but none of these great specialists could do anything for me, unless I laid off work for six months or took up some other occupation. I made a few visits to Dr. Doran's office, and then continued with his home treatment for five weeks. Now I am pleased and thankful that my eyes feel strong and clear as they ever were, and did not lose one day's work. It is a pleasure to recommend Dr. Doran's treatment."

GEORGE F. WATSON,
519 West Second street, Duluth, Minn.

Chronic Granular Ulcers Cured.

C. J. Reilly, Duluth Street Railway company: "As soon as I heard of this great specialist I immediately went to him concerning my eyes. Being a motorman and subject to wind and dust, my eyes soon reddened and inflamed; also, they felt as though a handful of sand had been thrown into them. After a few days with his wonderful home treatment for sore eyes, and I am completely cured."

where they have been for the past three weeks.

O. A. Gronseth, of Duluth, was in the city Monday. Mr. Gronseth is contemplating giving a concert here in the near future.

John A. Brown was in Duluth most of the week.

Rev. Father Corina, of Bemidji, visited in town Monday and Tuesday with Father Valentine.

The children of W. C. Gilbert, who has been visiting friends in Hibbing for a week, returned home yesterday.

S. J. Moran has been entertaining his brother, Mr. Moran, of Minneapolis, the past week. Mr. Moran is one of the Third Minnesota volunteers and has recently returned from Manila.

Will Nesbitt returned yesterday from a short business trip to Duluth.

Henry Williams, of Cass Lake, called on friends in town on Tuesday last.

SUGAR DIVIDEND.
New York, March 5.—The American Sugar Refining company today declared a quarterly dividend of $1\frac{1}{2}$ per cent on common stock. The previous dividend was 3 per cent.

ALL OF DULUTH IS WATCHING THESE ADVERTISEMENTS.

TWENTY ARE HURT

A Bad Wreck on the Illinois Central Road Near Chicago.

DEBRIS TAKES FIRE
And a Holocaust Narrowly Averted—Passengers Are Stockmen From the West.

Chicago, March 5.—Twenty stock men and railroad employees were injured, two fatally, in a collision today between two Illinois Central freight trains near Broadview, a few miles out of Chicago.

The injured are Joseph Holts, Maroon, Iowa, May die.

Frank L. McCall, brakeman, Freeport, Ill. May die.

J. R. Farwell, Manchester, Iowa, left thigh fractured.

Edward Yeager, Primghar, Iowa, scalp wounds and fracture of left arm.

Charles Peters, Matlock, Iowa, head cut and arm and leg lacerated.

U. R. Anderson, Manchester, Iowa, scalp wounds and right hand lacerated.

J. J. Collins, conductor, face and head cut and arm lacerated.

J. A. Clark, Elmhurst, Ill., nose broken and head severely cut.

J. H. Paine, Maroon, Iowa, left shoulder and left knee dislocated.

W. H. Spear, brakenham, Dubuque, Iowa, ankle broken and head cut.

Joseph Bernard, Iowa, right wrist broken, scalp wounds and back lacerated.

S. M. Wilcox, scalp wounds and both legs bruised.

H. O. Iowth, Sioux Falls, S. D., left foot fractured and head cut.

Peter J. Ball, Matlock, Iowa, head and back lacerated.

C. P. Statter, Sioux Falls, S. D., hands and feet cut.

J. W. Bryant, Clough, Iowa, left leg cut and right arm broken.

W. R. Russell, Otto, Iowa, bruised about head and arms.

Thomas McMahon, Quincy, Iowa, drove into left side broken.

E. A. Wilkinson, Quincy, Iowa, right hip dislocated and chest and back injured.

The two trains had been running about a mile apart. While climbing a long grade a coupling pin in the middle of the head train broke. The rear section of the broken train immediately started down the track and ran into the rear of the other train.

The collision occurred at a place where the tracks are closely spaced. It struck the engine of the incoming freight train with a terrific impact. Both trains were on their way to Chicago from Western Iowa and were made up mostly of loaded stock cars, with a caboose and passenger coach for the stockmen.

All the passengers were asleep in the day coach, and the first intimation they had of the accident was when they were thrown violently from their seats to the floor of the cars. The caboose telegraphed down the line that a wreck had occurred, planning a number of the passengers in the day coach.

Five broke out almost immediately, and for a time many of the injured were in great danger of roasting alive, but by hard work on the part of the injured passengers and the train crew all were removed in safety. The cars were almost totally consumed.

The engineer of the forward train had at the moment looked his train to the rear of the accident, and it was possible the wounded were loaded into an empty box car and taken to Broadview, where they were given the most attentive care by the one physician of the village until the arrival of a special train from Chicago, when they were taken to Chicago and placed in the Illinois Central hospital.

Joseph Holts, the most seriously injured of all, was taken out of the wreck apparently dead. He was pinned in the center of the car by the twisted framework of which had been twisted into a shapeless mass by the force of the collision. The car in the meantime was burning fiercely, and it was with the greatest difficulty that the injured man was finally rescued from the splintered roof.

IRON RANGE DOUBLE TRACK.
Three Hundred Men Working Between Waldo and Reno.

Two Harbors, Minn., March 5.—(Special to The Herald.)—Contractor Runquist now has at least 200 men at work on the new double track between Waldo and Reno, and it is expected the line will be ready for service as far north as York, and as far south as Thomas by the time the spring business opens up.

Inspector W. Clark will depart this week for an extended visit with relatives at Portland, Ore., and San Francisco, Cal.

At least ten new buildings are being erected already on the recently opened eighth street addition, about fifty have been sold and it is reported lots on Ninth street are to be soon offered for sale.

G. A. Miller has returned from his visit at Washington, D. C.

The approaching village election presents about the same features as heretofore, the main fight to be on local option. There are two tickets in the field, Harvey Holden being endorsed by both tickets for mayor, and candidates for trustees being Thomas Martin, C. Christensen, John Olson, W. A. Duerr, S. M. Johnson, W. B. Wood, and J. H. Paine.

The Iron Range road is now handling about 200 cars of logs per day between here and Knife River and Duluth.

G. A. Patter, of the logging firm of Wheelahan & Patter and John Miller, of the Miller-Armed company looked after their interests here last week. They are logging about three miles west of this place.

Saturday's snow storm will prove of great assistance to the loggers in this vicinity, the previous warm days having melted about all the snow on the roads and it being too warm to keep them road. Every logger will do his utmost from now on for hauling cannot last much longer than two or three weeks.

TRYING TO CURTAIL STRIKE.

Union Machinists Discourage Sympathetic Strikers—Traffic Tied Up.

Chicago, March 5.—The labor situation in Chicago took on a new phase today. The rapidity with which the union machinists' strike has spread, and the apparent willingness of the non-union machinists to follow the example of the union men in laying down their tools, has made the labor leaders rather apprehensive of the strike becoming unmanageable. President O'Connell of the International Association of Machinists said today that for the present at least non-union strikers would not receive the encouragement of the union. Efforts will be made to confine the trouble to union machinists, and sympathetic strikes will be avoided until the situation demands support of that character. President O'Connell also made the statement that no strike will be ordered among the machinists employed by traffic lines.

It is not the intention to allow the strike to interfere with the public convenience. The issued President O'Connell, and I have issued strict orders to this effect. Union men employed by traffic lines, not only the railroads, but the surface and elevated roads in Chicago as well, have been told that strikes will not be countenanced; not only that, but if they walk out, I will fill their places immediately.

About 200 machinists walked out of the Illinois Steel company's plant at South Chicago today, but 150 of them returned to work at once, convinced that the strike would be a failure. It was reported that the company had about 100 men ready to take the places of the strikers immediately, and this apparently had a depressing effect.

Trouble had been apprehended at this point, and a large force of police was on hand, but the strikers left the grounds soon after they laid down their tools and no disorder occurred. Nevertheless, this fact, heavy reserve forces are being kept at the various police stations for possible emergencies.

President O'Connell today received a telegram from the manufacturers of Columbus, Ohio, where a strike of union machinists is in progress, asking him to attend a meeting there tomorrow with a view to arranging an amicable settlement. He will leave for Columbus tonight.

FOR ELECTION LAW CHANGE.

A Campaign About to Be Started in Kentucky.

Frankfort, Ky., March 5.—The call for the state convention to inaugurate the war against the present election laws in this and several other Southern states will be issued in the next day or two. The convention will be held at Louisville tonight and will continue on a date for the convention, which will be held at Louisville a few days after adjournment of the legislature, after the meeting of the legislature.

The meeting of Louisville and other elements tonight to protest against the recent action of the state election board which refused to allow the Democratic and Republican leaders from the state and Senator Howard Clark and others will be held at Louisville a few days after adjournment of the legislature, after the meeting of the legislature.

...HERALD WANTS... THE WANTS THAT WIN.

Lake Breezes About Duluth.

The pendulum of destiny is swinging toward the zenith of Duluth's commercial and industrial development. Now is the time to buy, build and invest in Duluth.

Duluth offers illimitable commercial opportunities and inexhaustible manufacturing resources.

Duluth has the healthiest and most delightful climate in the United States. In winter the air is crisp and invigorating. In summer it is cool and exhilarating.

Duluth can furnish its inhabitants 12,000,000 gallons of pure, cold, sparkling water every twenty-four hours, through its own water plant and from the largest body of fresh water in the world.

Duluth offers special inducements for investment in a low rate of taxation. The rate for the current year for all city and county expenses is 24.9 mills.

In the past five years the taxes have been reduced \$500,000, and are being consistently reduced each year.

Duluth is the greatest primary wheat market in the world. In 1899 200,000,000 bushels of wheat and 100,000,000 bushels of other grain was raised in the territory tributary to Duluth.

Duluth annually distributes \$100,000,000 to the people of the Northwest for grain received. In the Duluth land district there are still 3,000,000 acres of pine, agricultural and mineral lands still unclaimed.

Duluth has access to 30,000,000 feet of standing pine in the forests tributary to Duluth. There are 35,000 miles of railway tributary to Duluth.

Capacity of the flour mills at the head of the lakes, 21,000 barrels a day.

Duluth's school property is valued at \$2,000,000. The finest schools of any city of its size in the country.

Duluth's elevator system has a capacity of 30,000 bushels. The iron mines north of Duluth produced 8,000,000 of ore during the short season of 1899.

Over 2,700,000 barrels of flour was manufactured at the head of the lakes in 1899.

Duluth distributed 2,500,000 tons of coal to the Northwest during 1899.

Duluth's vessel tonnage in 1899 was estimated at 14,135,247. During the season of 1899, over 10,500 vessels entered and cleared from the port of Duluth.

Duluth's population at the beginning of 1900 is estimated at 61,000.

Duluth has 50 churches and 31 public school buildings.

Many of Duluth's vessels have a capacity for 250,000 bushels of wheat at a single trip. This is equal to nine trains of forty-five cars each and each car holding 600 bushels. It requires the yield of 16,500 acres to make the load, and at one trip these vessels carry the product of 105 average farms.

Duluth has the greatest of future manufacturing possibilities. Inexhaustible iron ore deposits, and vast forests are at her very doors. The St. Louis river offers water power to the extent of 100,000 horse power.

WILL BE INSURANCE.

The great empire of China must be supplied with adequate means of transportation, and that means the building of the greatest system of railroads the world has yet seen. Our country, with its population of 100,000,000, supports 188,000 miles of railroad, or an average of twenty-six miles of railroad for each 10,000 of population.

The same ratio applied to China would call for over 1,000,000 miles of railroad, says Collier's Weekly. It therefore requires no stretch of the imagination to see that China, with her 400,000,000 of people, can and will support 200,000 miles of railroad.

The best part of 100 years to build up our present railroad system, and today the entire product of our iron and steel mills is sold for a year or two ahead. Should we begin now to build for China the railroads which she needs, and which her trade and population will support, it means a market for the entire product of our iron and steel mills, our car shops and our locomotive works for 200 years to come.

Not this all, for China, like all old countries, has a large population has existed for centuries, is a treeless country. Her forests have long since disappeared. The building of Chinese railroads, then, means a market for all the ties, pilings and bridge timbers that our mills and forests can produce.

To carry these immense supplies there will be needed on the Pacific, where no single vessel ply, and under the impetus of our shipbuilding interests will furnish our ships and the carrying trade of the world.

HERALD 1c A WORD.

FOR SALE—REAL ESTATE.

LOST.

Small gold locket with lock of hair inside. Monogram on outside. Suitable reward will be paid for its delivery at this office.

R. B. KNOX & CO.,
1 Exchange Bldg.

DULUTH EVENING HERALD.

SEVENTEENTH YEAR.

TUESDAY, MARCH 6, 1900.

LAST EDITION.

TWO CENTS.

Your Credit Is Good!

Our great partial payment plan has been the means of making more comfortable homes in Duluth and surroundings than any other institution in the town. This may sound like blowing one's own trumpet—but it's a demonstrated fact just the same. A store like this where you can buy every sort of home furnishings at prices as low or lower than any cash store in this country, and pay for them a little at a time, is a great promoter of thrift and economy. You can have a comfortable home without fee the expense.

French & Bassett,
COMPLETE HOUSE FURNISHERS.

TO PARTIES Who Wish to Build

We offer a selection of very desirable lots on Third and Fourth Streets in the center of the city, and in Endion Division from Fourteenth to Twenty-Second Avenues. And can also furnish money on mortgage loans in any amounts to assist in building. All on reasonable terms, and with strict fair treatment.

C. H. GRAVES & CO.
Office: Torrey Building, First Floor, Duluth, Minn.

REAL ESTATE, FIRE INSURANCE, STOCKS, BONDS AND INVESTMENTS.

OFFICES: 1. Banking House, First Floor, Duluth, Minn. 2. West Duluth Bank Building. See us before negotiating securities.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant. **HEALTHY!** It has no odor. Professor Thomson states one cubic foot of gas contains as much oxygen as four cubic feet of electric light. **CLEAN!** It causes no discolorations of furnishings and decorations in homes. **SAFE!** As electric light work, no danger of suffocation. **CHEAP!** By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

Commercial Light and Power Co. OFFICES: 215 W. Superior St.

I WANT TO SEE

those people who want the very best DENTAL WORK at a very moderate price.

D. H. DAY, Dentist.

A LONG JOURNEY.

Long journeys generally mean long absences; and a good picture from home is the very best companion.

Our Photographs give pleasure to the world over. They possess the true artistic touch and the superiority of their mechanical development leaves nothing to be desired. **7 E. Superior St.**

THE BOERS RETREAT

Withdraw From Dordrecht After a Hard Fight With Brabant's Forces.

LEFT IN GOOD ORDER

Got Off Artillery—Boers Are Retiring to the Free State.

London, March 6, 2:45 p. m.—The Boers in Northern Cape Colony are in full retreat to the Orange Free State. The possession of Stormberg puts Gen. Gatacre in railroad communication with Gen. Clements at Colesburg, for though the Boers partially wrecked the railroad, it is understood it can be quickly repaired, and thus the entrance of additional British troops into the Free State will be greatly facilitated.

From Dordrecht, where Field Marshal Roberts is opposed by a well-sized body of Boers, there is still no news except several minor skirmishes.

The position gained by Gen. Buller at Dordrecht is reported to be exceedingly strong. According to the Times correspondent the Boer numbers were estimated to be in retreat from Dordrecht practically unharmed.

He also reports violation of the white flag by the Boers, and that they deliberately fired at sentries on a stretch party.

Gen. Buller's garrison has begun to leave Dordrecht and is arriving at the Modder river camp, where the troops will be re-equipped. They are exhausted and, says the correspondent, the Boers are in a position to attack them at any time. The Boers are reported to be in a position to attack them at any time.

A dispatch from Dordrecht says that according to the Boer press the Boers are in a position to attack them at any time.

BRITISH GOING NORTH. Cape Town, March 6.—A strong force of British, including the Kimberley light horse, is being sent northward from Kimberley. It is expected that the crossing of the Vaal river will be disputed at Pekaia, where the railway bridge has been wrecked.

PROCLAIMS NEUTRALITY. Cape Town, March 6.—Sir Alfred Milner has issued the following proclamation: "Whereas, the enemy's forces have in the past been guilty of the most heinous crimes, and whereas, it is necessary to restore law and order, and suppress rebellion; now, therefore, I hereby proclaim that the British forces are in a position to attack them at any time."

BULLER'S CASUALTIES. London, March 6.—Gen. Buller's review of the battle of Dordrecht, on Feb. 27, gives 32 men killed, 65 wounded and 43 missing.

MOBILIZING FLEET. London, March 6.—The mobilization of a powerful fleet has begun at Torbay. Fifteen battleships arrived.

GATACRE IN STORMBERG. Stormberg, March 5, evening.—Gen. Gatacre, after the destruction of the railway bridge, has moved into Stormberg.

STORM IS GENERAL

Ohio Valley and Lower Lake Region Feeling Its Effects.

RAIN, HAIL AND WIND

Succeeds Snow as the Storm Moves Eastward—Trouble at Detroit.

Chicago, March 6.—For the past thirty-six hours the states of Minnesota, Iowa, Nebraska, Missouri, Illinois and Wisconsin have experienced a series of storms remarkable for their severity. The center, however, appears to have been through Wisconsin and Illinois and along Lake Michigan, where heavy snow, changing to hail, then to rain, and accompanied by a wind that at times amounted to a gale, has resulted in a partial demoralization of the telegraph and telephone service and has badly crippled every service.

At St. Paul, Dubuque, Iowa and La Crosse and Milwaukee, Wis., snow has fallen ranging in depth from three inches in Dubuque to twenty inches in Milwaukee. Chicago was pelted with snow, rain and hail alternately all to large quantities, while at Omaha and St. Louis heavy rain and sleet storms raged for hours.

The storm has moved east and south-east rapidly, and today the Ohio valley and lower lake region is being drenched with rain, which in places is driven in perfect clouds by the fierce winds.

The ice has been piled up so badly on the west shore of the lake that there is some danger of Chicago's water supply being partly cut off, as all of the cribs and intakes are hemmed in by perfect mountains of ice, and only unceasing work of the ice keepers has so far prevented trouble.

CAR FERRIES IN TROUBLE. Have a Hard Time Crossing the Detroit River.

Detroit, Mich., March 6.—Five car ferries carrying east and west-bound passenger trains over the Wabash and Michigan Central railroads were grounded either on packed ice or in the shallow middle ground of the river for intervals of two to eight hours last night and today. The Grand Trunk's ferries, the Lakeside and Great Western were partly unmanageable and were drifted into the ice.

The Canadian Pacific's boat Ontario had a similar experience. A ferry, transport owned by the Michigan Central was stuck for seven hours last night in a trainload of passengers. Michigan Central east-bound passenger train No. 1 was tied up in the river today for two hours about the ferry Michigan Central. All the boats were released today, but it was not until about 10 o'clock that the river was open to traffic.

STUCK IN DEFTS. Grand Rapids, Mich., March 6.—The city has been the center of a disastrous combination of wind, snow and sleet. Railroad traffic is practically at a standstill. There is no connection between West Michigan and the rest of the state. The Grand Trunk, Chicago, Division, are stalled north of Grand Junction. At Holland men are at work with chains on a stretch of five feet in a vain effort to reach the train or the docks to get the rescue. The Chicago passenger train due to arrive at Grand Rapids at 9:30 last night is stuck near Pennville. A snow pile and three engines and the train will not get off the track north of the drift.

STUCK IN DEFTS. Grand Rapids, Mich., March 6.—The city has been the center of a disastrous combination of wind, snow and sleet. Railroad traffic is practically at a standstill. STORM IS GENERAL

Ohio Valley and Lower Lake Region Feeling Its Effects.

RAIN, HAIL AND WIND

Succeeds Snow as the Storm Moves Eastward—Trouble at Detroit.

Chicago, March 6.—For the past thirty-six hours the states of Minnesota, Iowa, Nebraska, Missouri, Illinois and Wisconsin have experienced a series of storms remarkable for their severity. The center, however, appears to have been through Wisconsin and Illinois and along Lake Michigan, where heavy snow, changing to hail, then to rain, and accompanied by a wind that at times amounted to a gale, has resulted in a partial demoralization of the telegraph and telephone service and has badly crippled every service.

At St. Paul, Dubuque, Iowa and La Crosse and Milwaukee, Wis., snow has fallen ranging in depth from three inches in Dubuque to twenty inches in Milwaukee. Chicago was pelted with snow, rain and hail alternately all to large quantities, while at Omaha and St. Louis heavy rain and sleet storms raged for hours.

The storm has moved east and south-east rapidly, and today the Ohio valley and lower lake region is being drenched with rain, which in places is driven in perfect clouds by the fierce winds.

The ice has been piled up so badly on the west shore of the lake that there is some danger of Chicago's water supply being partly cut off, as all of the cribs and intakes are hemmed in by perfect mountains of ice, and only unceasing work of the ice keepers has so far prevented trouble.

CAR FERRIES IN TROUBLE. Have a Hard Time Crossing the Detroit River.

Detroit, Mich., March 6.—Five car ferries carrying east and west-bound passenger trains over the Wabash and Michigan Central railroads were grounded either on packed ice or in the shallow middle ground of the river for intervals of two to eight hours last night and today. The Grand Trunk's ferries, the Lakeside and Great Western were partly unmanageable and were drifted into the ice.

The Canadian Pacific's boat Ontario had a similar experience. A ferry, transport owned by the Michigan Central was stuck for seven hours last night in a trainload of passengers. Michigan Central east-bound passenger train No. 1 was tied up in the river today for two hours about the ferry Michigan Central. All the boats were released today, but it was not until about 10 o'clock that the river was open to traffic.

STUCK IN DEFTS. Grand Rapids, Mich., March 6.—The city has been the center of a disastrous combination of wind, snow and sleet. Railroad traffic is practically at a standstill. Rheumatism

A slight indefinite pain in the joints is the first sign of Rheumatism. When you feel this warning sign take Dr. Williams' Pink Pills for Pale People and the progress of the disease will be arrested. This remedy acts directly on the blood and nerves and has cured hundreds of cases of rheumatism that have been declared hopeless by physicians.

See that the full name is on every package:

Dr. Williams' Pink Pills for Pale People

Mrs. Mary Rixton, of Barryville, Sullivan Co., N.Y. She says: "About two years ago I had a severe attack of rheumatism. I suffered acute pain and much inconvenience. Physicians were unable to check the disease, and I was directed to a similar case, which was cured by Dr. Williams' Pink Pills for Pale People. My own case was cured by the pills and the first box did me so much good that I procured another box and those two boxes of Dr. Williams' Pink Pills for Pale People cured me."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' Dance, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, 60c, a box or six boxes for \$2.50 (they are never sold in bulk or by the 100) by addressing Dr. Williams Medicine Company, Schenectady, N.Y.

SCHOOL BOARD MEETING.

Very Dull Session--To Collect From Defunct Banks.

There was a very dull meeting of the school board last evening, and a good deal of routine business went through with neatness and dispatch. Director LeTourneau brought up the matter of a balance of \$200 due the American Steam Heating company for work done on the Madison school, and wanted to know if there was any reason why it should not be paid. Director LeTourneau said that the work had not been properly done, and as a result twenty feet of heating surface had been lost. The board decided to oblige to go to the expense of \$60 in putting in new breeching between the stack and the boiler, and even in the results are not satisfactory. The matter was left to the committee on buildings for a report at the next meeting.

The board's attorneys were instructed to proceed with the collection of money held up in defunct banks and to take such action as seems proper to protect the board's interests.

DIVIDEND.

Eggs Still Climbing.

Fresh eggs were still on the up grade yesterday, and it seems as if the price, with some held lots going at 16 to 16 1/2. In storage eggs the effect of the increase in demand resulting from the advance in fresh stock was counterbalanced by the anxiety of the holders, although there was a wide range, and there were sales as high as 12 cents.

Potatoes continued slightly weaker than last week, although the markets south and Chicago showed an easier feeling than for some time past. The situation here was said to be due to the fact that some large lots had been dumped on the market at a sacrifice by over-anxious shippers. The quotations yesterday were 14 to 15 cents.

Poultry was steady, unfrozen, dry pickled chickens being 11 to 11 1/2, and turkeys 12 to 12 1/2 cents.

Pork loins were steady at 24c, and hams at 8 to 11 1/2, and bacon 10c.

THERE IS A CLASS OF PEOPLE

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new variety of coffee, GRAIN-O, made of pure grains, that takes the place of coffee. The coffee is delicious, stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/2 as much. Children may drink it with great benefit. It is 2c per package. Try it. Ask for GRAIN-O.

HATLEY THE WINNER.

Defeats Spears With Ease in the Billiard Contest.

The first day's play in the 2,400-point fourteen-inch billiard game between Hatley and George E. Spears of Minneapolis for the championship of the Northwest resulted in a decided victory for Hatley, says the Minneapolis Times of yesterday.

The first game of the series, of 500 points, was played during the afternoon yesterday and 300 more points were played during the evening. Both games were won by Hatley, and the work of the players was watched with the keenest interest. There was little of the grand strategy of play in either of the games, however, the work of the players, Hatley especially, being superior and deliberate.

Hatley so far has very much the best of it. Out of the 600 points played yesterday, he won 350 and the evening game. Spears managed to score 376. This leaves a big discrepancy to be made up before the finish of the remaining six games, and Spears will have to take upon himself a heavy burden in order to remain in the swim.

In the afternoon game Spears scored 167 points to Hatley's 280. His best run was 6-29 and his high run 34. Hatley's average was 10-57 and his high run 111. This made the score 352 to 280 in favor of Hatley. The gentleman then proceeded to run out the game in three more innings.

Spears' defeat in the evening contest was not quite so bad, but Hatley took a good start in the fifth inning, with a run, a hit, and kept his score far out of danger throughout the balance of the game. The result of the evening game, Hatley's high run was 57 and Spears' 27. Spears maintained an average of 6-16. Hatley's average was 9-11, which showed a very slight falling off as compared with his work of the afternoon.

Two more games of the contest remain to be played in Minneapolis this afternoon and evening. At Dwyer's hall, 216 Second avenue south, each game will consist of 500 points. The remaining four games will be played in Duluth, at the St. Louis hotel billiard hall, on March 12 and 14. Games of 300 points each will be played afternoons and evenings upon these dates.

TUG COMPANY COMES BACK.

Wants Value of Lost Sloop From Cody & Addis.

The Union Towing and Wrecking company has filed an intervening libel in the case of Cody & Addis against the tug Carrington for the value of the sloop which was lost, and over which the action is concerned. It places the value of the sloop at \$3000. The same company has also instituted suit against Cody & Addis for the value of the sloop and other matters connected with its loss, aggregating in all \$3005. It is claimed that Cody & Addis made arrangements to take the sloop at their own risk and were to take it out in calm weather only, and were to load and unload it themselves and without delay. It is charged that they overloaded the sloop, that they had it out in stormy weather and that they did not have men ready to unload it promptly when it reached its destination, as they had agreed should be done.

35c, 35c, not 25c, not 50c, 35c, the price of Rocky Mountain Tea the world over. None genuine, unless made by the Duluth Medicine Co. Ask your drug-gist.

THE TERM IS OPENED

March Session of Court Taken Up With Judge Dibell In Charge.

SMALL DIVORCE DAY

Only Eight Cases on the Calendar--Grand Jury Will Finish Quickly.

The March term of district court opened this morning with all three judges in attendance and rather a light calendar to go upon. The term opened this morning by the call of the calendar, at which there was a light attendance of the bar. When court opened there were eighty-seven cases on the calendar, and during the call three more were added. As thirty cases were continued over the term, or stricken from the calendar, this left sixty-seven for trial, of which twenty-three are for trial by court and jury and thirty-seven for trial by the court alone.

Of the court cases eight are default-divorce cases which will be taken up tomorrow morning. This is much less than the ordinary number for a term, there usually being from ten to twenty. The eight cases that will be taken up tomorrow are as follows: Louise Hucksman against Albert Hackman, Anna Hanson against Edward Hanson, Katharine C. Dalton against Thomas A. Dalton, Margaret Hoelscher against Albert Hoelscher, Honora Shea against Guinn Shea, Lottie Butler against John J. Butler, Ingeborg Johnson against Louis G. Johnson, and Albin Deshanes against Henry Deshanes.

Judge Can't has charge of the calendar this term in court room No. 1, and Judge Englin will hold court in room No. 3, and Judge Dibell in room No. 2. The duty of charging the grand jury fell to Judge Dibell, but there were only fifteen members of the jury present this morning, and as sixteen are needed to constitute a quorum the organization of the jury was put off until this afternoon, when Judge Dibell delivered the charge. Assistant County Attorney McCintock has charge of the grand jury as usual, and he stated this morning that he expected the session to last about three days. There is not a great deal of business to come up, but one of the matters that will be called to the attention of the grand jury, the Procter-Kent row, will take some little time.

The trial of jury cases will be taken up Monday morning, and the grand jurors are summoned to appear at that time.

RED MEN

Special train leaves Omaha Depot at 7:30 this evening, Wednesday, March 7, for Old Super. All Red Men in Duluth meet at Wigwam, Elks' hall, at 7:15 sharp.

Red Men Again Active.

The chiefs and warriors of the local tribe of Red Men will be joined by their allies from Slitting Bill tribe of West Duluth and Pontiac tribe of Two Harbors this evening, for an invasion of the race vault of Wisconsin, hunting grounds of Old Super. The special train, or "the iron horse," as the Red Men call it, will leave the Omaha depot at 7:30, stopping at West Superior for the members of Oldlawa and Okakoba tribes, arriving in Old Super about 8:30, when they will meet the degree team of Kitchie Gummee tribe in a contest of the adoption and deliberation.

Members of the Old Town tribe are making great preparations for the event, a banquet and a dance. The committee having been procured which will be served immediately after the contest.

LEVER AT ST. JAMES.

London, March 7.--The first levee of the season was held by the prince of Wales today at St. James' palace. There was a fairly large number of guests, but there was not the usual preponderance of uniforms on account of the war. The prince's levee was held in the grand ballroom, and was attended by United States Ambassador Chanute, presented Col. Carey, S. V., and the Coleman Drayton, Hugh Griffin and Lt. S. Hunterford, of New York.

ABSOLUTE SECURITY.

Boers Say Ladysmith Retreat Caused by a Mistake.

Boer Camp, Biggarsburg, Saturday, March 7.--The federals have fallen back on the Biggarsburg chain that crosses Natal south of Dundee. The retreat from Ladysmith was due to the mistake of a certain commandant in ordering his men to retire from the key of the position without any reason for the move. On the receipt of bad news from the Molder river Wednesday it was resolved to send the wagons back to Biggarsburg, and soon long strings of ox wagons lined the roads. Over 1000 wagons took the westerly route to the larger southwest of Ladysmith. Another convoy was sent to the foot of the Drakensberg. A large number of tents captured from the British in Dundee, and also the ammunition, were abandoned. The chief difficulty was in dismounting "Long Tom."

Ericson's Discount Sale

On Winter Overcoats, Ulsters and Boys' Reefers is sure to interest all shrewd buyers.

C. W. ERICSON, The Clothier.

Via "The Milwaukee"

Cullum, dentist, Palladio, Phone No. 9. Tibbetta, undertaker, 31 East Sup. St. Funerary printing, see R. P. Co. Kelly's last 10 years of work have been in the city. There will be dinner served at First Methodist church at 4 o'clock on Thursday. Price 25 cents.

Mrs. C. B. Moses, grandmother of Mrs. William B. Moses, died last evening at Minneapolis, which is her home. She was about 90 years of age. Some time ago she lived in Duluth and was well known in the western part of the city.

Taney Priol and others have begun suit in district court against V. H. Bridgeman and others to clear title to lot 16 block 22, West Duluth, first division, to which the defendants claim some title by virtue of purchase money mortgage. Alford & Hunt are the attorneys.

Articles of incorporation of the West Duluth Land and Lumber company were filed this morning in the office of the register of deeds by H. C. Brown, A. J. Hag, C. E. Jones, T. M. Johnson, Mrs. C. C. Jones, Elizabeth A. Smart, Georgia T. Ross, Fannette S. Smith and L. B. Smith.

For an alleged assault William A. Shull judgment for \$100 damages against A. W. Anderson. Shull claims that Anderson unlawfully and maliciously made an assault upon him Feb. 6, with fist and feet, and that he was injured, and he claims to the extent denoted by the sum of \$100. Anderson denies the charge.

George Houghton has begun two suits in district court to clear title to acres in this county. In one case J. H. Poitrel is the defendant, and in the other the suit is against the heirs of the late J. H. Poitrel. The suit in the second case is against the heirs of the late J. H. Poitrel, and the property is the suit of the heirs and heirs of the late J. H. Poitrel, and the suit is against the heirs of the late J. H. Poitrel.

HE TAKES OFFICE

Chief Crandall Dons the Star and It Is Plain Iwan Hansen Now.

CENTER OF INTEREST

Police Department Monopolizes Speculation--Other Officials Step In.

With a feeling of sadness and sorrow that his soul could not resist Iwan Hansen handed over an old battered chief's star to C. T. Crandall at police headquarters this morning. Other stars in the vicinity did sundry twinkles, but up to 3 o'clock this afternoon nothing had happened. The political astrologers about the city hall predict that a general shower of stars will be visible to the naked eye almost any clear evening this week or the early part of next.

The transfer of authority in the chief's office was quick and cordial. Chief Hansen and the new chief, exchanged greetings and then the old chief showed his successor around the department, explained the various features of the work and told Mr. Crandall a few of the mistakes he had made during his term of office.

Maj. Resche assumed his duties as captain of police at the same time as his chief and Capt. Thompson, who is now a detective, was busy all day looking up mysterious and cunningly devised clues.

Chief Crandall said that the mayor would decide on the other changes in the police department. He thought that probably by this afternoon a selection would be made for lieutenant.

The police department at present seems to be the center of interest and political speculation all over town. The mayor in his address last night intimated a complete reorganization in the police department.

The appointment of Maj. Resche is supposed to be the first step toward disciplining the police. He is supposed to have been disturbed the gambling fraternity for it is current rumor today that not a den will be open tonight.

This morning City Attorney Oscar Mitchell succeeded Mr. Richards, who proposes to go back to his private practice at once. There is a report about town today indicating a strong sentiment in favor of Mr. Richards as a candidate for county attorney. It is not known whether he would accept it or not.

J. D. Holmes was the first of the new officials to qualify and he immediately succeeded William Spencer as assistant city clerk.

Thomas Olafson will not take his office as city assessor till April, and now the plaintiff must seek to get the \$2000 in some other way.

This morning an affidavit made by Frank Hicks was filed to the effect that the claim has been assigned by Frank L. Doyle to Theodor Hollister and that execution was issued and that no property of the defendants could be reached in the seizure of the same.

The United States Fidelity and Guaranty company is required to appear in court before Commissioner Pressnell and make a disclosure.

An order has been made by Judge Lochren requiring the company and E. F. Towne, its attorney, to appear before Commissioner Pressnell and make a disclosure.

BRINGS RESCUED SAILORS.

Wilmington, N. C., March 7.--The Norwegian ship Passat, Capt. Aaronson, which arrived in port today, had on board the rescued sailors of the schooner Isiah Hart, of Boston, from Baltimore to Duluth, which was captured by a gale off Hatteras Tuesday, Feb. 27, and went down Friday morning following.

Clock Sale!

Powerful whiskey was John McCall's pitfall and caused his downfall. He was in police court this morning with a head that evidently felt larger than it really was. He pleaded guilty and got ten days. Anton Hansen, another prisoner, had been looking for a job under Mayor Truvelsen's administration, and the change of authority was too much for him and he got drunk. He paid a fine of \$10.

Masterpiece of Diplomacy.

HOCKEY GAME.

Remarkably Brilliant Contest Won By the Great Easterns 5 to 2.

The Great Eastern and Duluth Hockey teams delivered a large crowd at the Duluth rink last evening in one of the finest games seen in this city. It was a slashing, brilliant exhibition of expert skating and precise team work. The Great Easterns won by a score of 5 to 2 but the Duluth team was far from being outclassed. By taking this game the Great Easterns have won two of the series of three for the team of the lakes' championship, and in addition the local team now claims the championship of the state.

There was a big crowd of rooters for both sides when the game opened. The first half men having a particularly leisurely

from this source, fairly carried the Great Eastern team off its feet during the first ten minutes' play. Almost then the Easterns cleverly drew the puck from a Duluth defenseman and in a few minutes after the game started.

The next two goals were scored by the Great Easterns on one of the prettiest and at the same time most sensational pieces of team play ever executed by the Duluth team. Southernland caught the puck at a hard angle and it through between the goal posts about four inches from the top. The next goal was more sensational. Whittier got the puck in the center of the rink and, dodging two of the opposing players, the side over to the goal. He then, by this stroke of strategy, carried the puck to the goal and shot it in. Fairweather, in the meantime, had stolen down the center of the rink and, dodging two of the opposing players, the side over to the goal. He then, by this stroke of strategy, carried the puck to the goal and shot it in. Fairweather, in the meantime, had stolen down the center of the rink and, dodging two of the opposing players, the side over to the goal. He then, by this stroke of strategy, carried the puck to the goal and shot it in.

It stands alone, it towers above. There's no other, its nature's wonder, a warning point to the heart of man. Kind, such is God's Mountain Test. Ask your druggist.

"A dose in time saves lives." Dr. Wood's "Auntie's Pine Syrup" nature's remedy for coughs, colds, pulmonary diseases of every sort.

Dr. Doran Guarantees a Cure

Specialist--Eye, Ear, Nose, Throat and Lungs and Special Diseases.

Consultation Free! Why Not Try His Treatment?

You Risk Nothing in Taking Treatment

With Dr. Doran, the great specialist in the New Jersey building, Duluth. His electro-chemical treatment is the finest in the world. He will charge you nothing for consultation or examination and if your case is curable he will guarantee a cure.

The Country People

And the people in the neighboring towns and villages are coming on every train to Duluth to be cured by Dr. Doran in the New Jersey building.

Doctor Doran, Specialist.

New Jersey Building, Duluth.
Corner First Avenue West and Superior St.
Office hours: 10 a. m. to 8 p. m. Sundays—10 a. m. to 12 m.

WEAK MEN.

You think your friends are ignorant of your condition. They are not. It is generally easily recognized. He is branded before the eyes of the public by his weak, nervous condition, irritable temper, sultry wrinkled face and lack-lustre eyes. Lost manhood will make the strongest of men pitiful, weak, hesitating, useless cowards. You are lacking in will and everything that goes to make up a true man. You feel like a fool among men. And you are suffering from Nervous Debility, Loss of Pining Vital Strength, commonly called "Lost Manhood." Exhausting Drains, Pimples, Lame Back, Inflammation of the Bladder and Kidneys, Highly Colored Urine, Small or Weak Organs, Failing Memory, Loss of Mental or Sexual Vigor, which unite you for Study, Business, Pleasure, Marriages, all of which are the results of youthful indiscretions, excesses, overwork and mental worry. Lack of energy and confidence, despondency, evil foreboding, timidity, lassitude, dizziness, sleeplessness, chest pains and other distressing symptoms, which if neglected lead to premature decay, insanity, suicide and death. Do not wait if you are afflicted. Dr. Doran's New System of Treatment is what you need. A cure is always guaranteed. The reason the OLD doctors fail to cure is because they do not know the latest scientific ways of treating nerve diseases. Dr. Doran can cure you with his New Electro-Chemic Treatment.

DEAFNESS.

I Took My Little Daughter to the City to Get Cured.

Mrs. M. A. Greeley, Sanstoe, Minn.: "Dr. Doran's New Treatment for Ear Disease is just wonderful. I did not believe that she could ever be cured of her ear trouble, for deafness and discharging ears, as everybody knows, was always considered incurable."

"But I want to tell everybody with deafness or discharging ears that Dr. Doran's Treatment is NEW. It is entirely different from the old method. It restored her hearing and entirely stopped the discharging ears. I was in the city only a few days for special office treatments, and then returned home and continued with home treatments."

Totally Deaf.

T. B. Miller, West End, aged 72: "I was totally deaf when I went to Dr. Doran, so deaf that I could not hear my son speak to me. When he wished to communicate anything to me he would have to write to me. I did not want to live if I had to be so deaf. So I went to Dr. Doran and he restored my hearing. Now I can hear ordinary conversation without difficulty."

Cancers and Tumors.

Only curable cases taken. The new treatment cures even after the knife and drawing plasters have failed, and to prove that Dr. Doran's new discovery does cure cancers and tumors, he will take them on the guarantee plan—that is, it will cost you nothing if you fail to get cured.

Everything as advertised. Open every Saturday night.

8 PHOENIX BLOCK

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas contains as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.
